

Tab 1

Data Set

Geotab Integrated Solution for Kia (Europe)

Data points are reported as follows:

- Always upon vehicle ignition off (except EV-related data)
- Upon data signal change for applicable data attributes (for example, when vehicle door lock status changes from unlocked to locked)

Data Attribute (Name in MyGeotab UI)	Device Plan — Kia Basic (Available in Europe) Data points are reported circa +1 hr after vehicle ignition OFF (except EV-related data), and upon data signal change (as applicable)
GPS	✓
GPS Heading	✓
Odometer	✓
Ignition	✓
Vehicle door lock status (0 = Secured, 1 = Unlocked, 2 = Selective locked, 3 = Locked, 4 = Invalid, -1 = Unknown)	✓
Front left-side door open (1 = Open)	✓
Front right-side door open (1 = Open)	✓
Left rear door open	✓
Right rear door open	✓
Trunk open (1 = Open)	✓
Hood status (0 = Closed, 1 = Open)	✓
Fuel door status (1 = Open) (!)(**)	✓
Tire Pressure Monitor System Warning *	✓
Tire Status Indicator FL *	✓
Tire Status Indicator FR *	✓
Tire Status Indicator RL *	✓
Tire Status Indicator RR *	✓
Warning: Vehicle battery has low voltage	✓
Exterior Lighting System Failure	✓
A/C control unit status (1 = On)	✓
Front left-side window open (1 = Open)	✓
Front right-side window open (1 = Open)	✓
Rear left-side window open (1 = Open)	✓
Rear right-side window open (1 = Open)	✓

Brake fluid warning	✓
Hazard light status (1 = On)	✓
Generic distance remaining ^(!)	✓
Total fuel used (since telematics device install)	✓
Fuel level (percentage)	✓
Trip fuel used	✓
Total engine idle time	✓
Average fuel economy	✓
Generic state of charge ^(!)	✓ (on change while charging - 10% interval)
Generic fuel level low warning light (0 = Off, 1 = On)	✓
Electric vehicle charging state (0 = Not charging, 1 = AC charging, 2 = DC charging) ^(!)	✓ (on change)
Electric vehicle distance remaining ^(!)	✓
Electric vehicle battery total energy out while driving (since telematics install)	✓
Electric vehicle battery total energy in while driving (since telematics install)	✓
DTCs	coming soon

*Availability dependent on model and software version

**This data point refers to the Charging port (open/close state) - only available in EVs.

^(!) Available only if the vehicle has been added to the Kia Connect App - see instructions [here](#).

Kia Premium

Data Set - Geotab Integrated Solution for Kia (Europe)

Data Attribute (Name in MyGeotab UI)	Device Plan — Kia Premium (Available in Europe) Data points are collected every 10 seconds on the vehicle but reported every 60 seconds to MyGeotab (except EV-related data), and upon data signal change (as applicable)
GPS	✓
Engine road speed	✓
Odometer	✓
Ignition	✓ (on change)
Telematics device voltage	✓
Parking brake	✓ (on change)
Gear position	✓ (on change)
