

Ships

This is a comprehensive ship list covering what my ships are, what I'm open to shipping and ships that will never happen on my blog. I am not hating any ship. You do you and I'll do me. Any ships not explicitly stated we can discuss. I ship chemistry more than anything else. *Things that will get you blocked* only means that if you ask me for it or try to force this ship on me then you will get blocked. Otherwise happy shipping
