The Department of Environmental Protection, Bureau of Remediation & Waste Management, is seeking to fill two Geology Technician II vacancies: one in Augusta and one in Bangor.

BRIEF JOB DESCRIPTION: This position provides hydrogeological assistance in the investigation and remediation of sites where soil, groundwater, and other media have been contaminated. The position assists with planning the appropriate hydrogeologic investigation, oversees and conducts sampling activities, implements a remedial solution as directed to prevent public exposure to contaminants, and provides documentation of contaminated sites. The position collaborates with staff throughout the Department to achieve clean-up goals and assists with other project work as needed. Responsibilities of the position include: 1) sampling monitoring wells, drinking water supplies, contaminated soil, and other media; 2) assisting in the setup and maintenance of remediation systems at contaminated sites; 3) using GPS equipment to locate site and sample point features in the field, downloading the data, and creating maps using ArcMap; 4) organizing and entering site data into a variety of Bureau databases; and 5) maintaining equipment operations including ordering supplies, maintaining equipment, and calibrating instruments. For additional information, please contact Paul Blood at (207) 557-4311 or Nick Hodgkins at (207) 592-0882.

MINIMUM QUALIFICATIONS: Candidates must have a five (5) year combination of technical education and/or related experience in geology or closely related field.

Preference will be given to candidates with the following skills and experience:

- Knowledge of basic geology, hydrogeology, earth science, geochemistry, and topography.
- Knowledge of investigation and remediation methodologies at contaminated sites.
- Experience in sampling media at contaminated sites.
- Understanding of Conceptual Site Models.
- Familiarity with GPS equipment.
- Familiarity with spreadsheet, database, and GIS software.
- Ability to communicate effectively orally and in writing.
