

Subject: Introduction to IBM SkillsBuild

Dear Prof. *Last Name*,

I hope this message finds you well.

My name is *Your Name*, and I am a student in *Course Name* at *Department Name*. I am also a Student Ambassador with IBM SkillsBuild and part of my role is to raise the profile of IBM SkillsBuild by introducing students and faculty across the campus to the digital credentials it offers, focused on AI, cybersecurity and data.

By providing students with access to the SkillsBuild Platform, they can gain valuable knowledge in these fields and earn a variety of badges. Once they have completed the *Getting Started with AI* badge, they will unlock access to speed mentoring with IBM professionals and a paid micro-internship opportunity through Parkey Dewey.

Personally I believe it is an opportunity that would benefit all the students on this campus. I would like to discuss this with you further. Please let me know your availability for a brief meeting. Looking forward to the possibility of collaborating together.

Warm regards,

*Your Full Name*

Student Ambassador with IBM SkillsBuild
