

UKRAINE CLIMATE TECH DEALFLOW SESSION

Greencubator Investor Connect ~ 23 March 2026
16:00-18:00 Kyiv · 15:00-17:00 CET · Online, Invitation Only

OVERVIEW

The Ukraine Climate Tech Dealflow Session is a closed, invitation-only investor connect event designed to bridge international climate capital with a curated group of investment-ready Ukrainian climate technology companies. Hosted by Greencubator under the Greencubator Investor Connect (GIC) initiative, this session opens a disciplined and high-signal capital conversation - grounded in real traction, not potential.

ABOUT GREENCUBATOR

Greencubator is Ukraine's leading cleantech accelerator and ecosystem organisation for sustainable entrepreneurship, low-carbon innovation, and green economy development. Operating since 2009, Greencubator has supported over 160 climate tech ventures, managed more than €12.8M in grant-funded programmes, and built the country's most active climate innovation community.

Core programmes represented in this session:

- ◆ CIV (Climate Innovation Vouchers) - initiated by EBRD, funded by the EU; Ukraine's largest grant facility for climate innovation businesses
- ◆ GCIP2 (Global Cleantech Innovation Programme 2) - implemented in partnership with UNIDO, supporting investment-ready cleantech SMEs
- ◆ Greencubator.academy - an online acceleration and education platform for climate entrepreneurs across Ukraine and Eastern Europe
