

Navigating Virtual OpML '20

Join Slack

Join the OpML Slack workspace by clicking on the following invitation link:

<https://www.usenix.org/opml/slack>

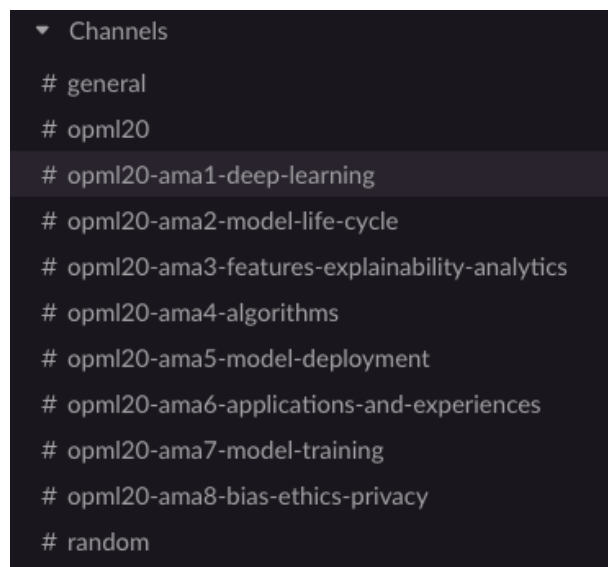

- Already have a Slack account for another workspace? You'll need to create new login credentials for this workspace.
- New to Slack? View Slack's [“getting started” guide](#).

Conference Format & Schedule

Each day of the conference will feature a 90-minute ask-me-anything (AMA) discussion on Slack based on the paper presentation videos for a particular session (review the [OpML '20 conference program](#) for the schedule).

Watch the Videos & Interact Online

Watch the videos in advance (posted on [the program page](#)), read the papers, and then head to the Slack channel for the session you're attending to start or join the conversation there. (See Slack support article on [using threads in conversations within channels](#).)

Thanks to NetApp, OpML '20 Bronze Sponsor and Open Access Sponsor!
