Abstract

Purpose of the study: In simple words tell to readers about the aim of this study. No discussion, no story only aim of this study. **Methodology:** Give name, brand, type of tools, methods, software, review, and survey that has been used to do this study. No discussion or explanation. **Main Findings:** Write only main results in few words. No discussion or explanation. **Applications of this study:** where this study can be useful, give name of area, disciplines etc. **Novelty/Originality of this study:** what is new in this study that may benefit readers and how it is advancing the existing knowledge or creating new knowledge in this subject. [150-250 words]

Keywords: 3 to 5 keywords. Take 2 or 3 from title. Keywords should be commonly Google searchable terms

A. Introduction

Provide background of the study in easy words. In this section author should discuss the research problem in very clear words. Also discuss the motivation of the study. Provide intext references in APA style for all the facts that are presented here. (Estache,2001) **<This is an example of how to place a bodynote>:**

B. Literature Review

Related work of previous researchers should be presented. Minimum 10-15 good and recent works should be presented. This section can be merged with introduction section as well. Here author can discuss the research gap that this study is going or willing to cover. Provide intext citation in APA style. (Harris, 2019)

C. Methods

Present the materials, methods, survey, questionnaire etc used for the study. Author should explain whether this study is experimental, or review study, or simulation based or survey based. Discuss software, hardware's used during study with their brand names. Mention all research conditions, assumptions, theories followed. This section should be easy enough for any reader to repeat the study under similar conditions.

$$AR_{iid} = R_{iid} - \overline{R_{i3}}$$

please group all formulas in the text. See left side

$$t = \frac{CAR_{it}}{[Var(CAR_{it})]^{\frac{1}{2}}}$$

please group all formulas in the text. See left side

IMPORTANT NOTE:

< All figures should be drawn carefully. Cut, copy, paste functions as well as size enlargement and reduction should be functional. >:

< All tables should be designed carefully. Cut, copy, paste functions as well as size enlargement and reduction should be functional. Please group all tables in the text.

>:

D. Results and Discussion

Provide logical and scientific findings of the study. Present evidences to support your analysis by citing work of earlier researchers or existing theories.

E. Conclusion

Should be written in very clear words. It should explain how the objectives of the study are accomplished.

F. Acknowledgement

Author should present list of acknowledgement at the end. Any financial or nonfinancial support for the study should be acknowledged.

G. References

REFERENCES (all references should be in APA style and present inside the main body of article. Don't put extra references. You are free to add a list of further readings and put add extra references, websites, ebooks etc in that section)

All end references should be mentioned inside the article in the form of Intext reference.

Reference list entries should be alphabetized by the last names of the first author of each work.
