Faux Wood Blinds

Add the convenience of tilting the slats of your blinds open and closed with a touch of a button. This feature is compatible with a single blind or multiple blinds on adjacent windows. The motorized tilt feature is a great option for those hard to reach windows.

Choose from 15 Drapery Hardware collections and over 20+ finishes. Sustainably sourced, all-natural grasses, woods and bamboo — crafted to complement every interior. Our Solar Shades protect against UV rays and reduce glare, while filling every space with beautiful natural light. Practical and stylish, our Roller Shades collection showcases 400+ exclusive and eco-friendly materials. Available in both 2" and 2 1/2" slats, in a range of solid and woodgrain colors.

Moisture and humidity resistant, they make the perfect window treatments for bathrooms and kitchens. They're warp and fade resistant, too – some with UV ratings as high as 500 – so you'll enjoy years of use from these versatile fake wood window coverings. As of September 2018, nationwide average prices for natural wood blinds and faux wood blinds ranged between \$3.80 and \$7.30 per square foot.

Aire Wood only comes with our upgraded designer valance and bottom bar. The Premium Class is an excellent investment created in timeless styles. Made with high-quality materials that are made to last.

Featuring beautiful woods and wood alternatives, custom Wood Blinds from The Shade Store offer a timeless look and unmatched longevity. All wooden blinds are handcrafted in the USA and ship free in 7 days or less. Add a personal touch to your Wood Blinds by using Decorative Tapes. The tape covers the ladders on the front of the blinds, adding both color and style. Decorative Tapes layer over route holes, giving you more privacy and light control. Using two products on the same headrail also gives you the ability to choose which sections to raise or lower so they don't interfere with the functionality of doors and windows.

The Graber Advantage From custom craftsmanship to curated fabrics, we hold ourselves to the highest standards—so you can delight in every detail. Graber Innovation At Graber, we're always looking for innovative ways to improve our performance, the processes we use, and ultimately, our products. Make sure you know all about how these blinds work before you get them. Let us know within 30 days after delivery and we'll help you find the perfect product for your home. How to Measure Become an expert with our step-by-step measuring guides.

Adhere static-cling decals to your windows to pump up your living room style. For example, add nature-inspired window decals, such as trees, leaves, acorns, flowers or ferns, to enhance a living room by providing natural outdoor vibes. Or, cut tinted window film to custom-fit your small

windows for a no-nonsense, contemporary feel.

When measuring the window for outside-mount blinds, repeat the same steps as above, but remember to factor in the desired amount if there's no window trim. Also, calculate how much space you'll need for the hardware. So there are a few reasons why you can't find 300cm wide blinds on the market. 1, with real wood it's difficult to get consistent slats that wide without any blemishes to them, so things like knots or bends in the wood. With faux wooden blinds, the maximum we can go to is 260cm wide. We can't make them any wider due to the weight and stress on the mechanisms and brackets.

Learn about common issues in your home, as well as how our products are best suited to handle them. Wood Blinds Responsibly-sourced wood adds a rich warmth and insulation to any interior. The Graber Limited Lifetime Warranty represents a dedication to your complete satisfaction — ensuring a lifetime of beauty, excellence, and service when you need it most.
