

Family Themed Arts and Crafts:

Family Tree:

Trace each member of your family's hand and cut and paste to a tree. Don't forget to label each one.

You can recycle toilet paper rolls for this activity. Paint each one and use leftover yarn for the hair. If you have googly eyes you can use those, if not, you can just draw them on.

If you happen to have some popsicle sticks at home, you can use markers to decorate them and paste to a piece of paper like above. I love the two cats they added to this one.
