What has drawn you to sign up? Please offer details why you want to attend this program using the following questions as a guide.

- How would you describe your particular relationships to the more than human world (what we call in a limited way, "nature"). Are there numinous/sacred experiences that you hold as significant in your life - mysterious experiences that have shaped your sense of yourself and world that is meaningful to you?
- How would you describe the life stage you're in now? What inner resources and vulnerabilities are you aware of in this time?
- What calls you to gather with others for this kind of individual work in community? What gifts or passions do you bring with you for this?
- Have you been involved in other Courage & Renewal /Animas Valley Institute/ or other nature-based Soul connected retreat programs?
- Is there anything else important that would be helpful for us to know about you?
