

# CIMAMotor 2025 — A Full-Spectrum Showcase of the Two-Wheeler Industry

**Dates:** September 19–22, 2025

**Venue:** Chongqing International Expo Center

**CIMAMotor 2025** is gearing up to welcome **800+ leading companies** from across the global motorcycle and electric mobility supply chain. This year's exhibition offers a deep dive into the full spectrum of product categories shaping the future of two-wheeled transportation.

## What's on Display: Category Highlights

### 1. Complete Vehicles

Expect the latest gas-powered and electric models from China's top OEMs—ranging from commuter bikes to high-performance machines.

### 2. Electrification & Smart Systems

The EV revolution is in full swing. Battery makers, motor suppliers, and control system developers will present integrated solutions for the next generation of electric motorcycles and scooters.

### 3. Performance & Customization

The rise of lifestyle riding is reflected in the strong presence of tuning and modification suppliers, with products like high-end exhausts, custom seats, alloy wheels, and electronics upgrades.

#### 4. Safety & Smart Riding Gear

Leading brands will display next-gen helmets, riding suits, airbag jackets, and wearable tech—ensuring that safety meets style.

#### 5. Core Components

From advanced braking systems and lightweight suspensions to sensors, lighting, and drive chains—this is the backbone of China's parts manufacturing power.

### Why This Matters

Whether you're an OEM, distributor, aftermarket buyer, or media professional, **CIMAMotor 2025 offers a panoramic view** of the trends, tech, and products driving the two-wheeler industry forward.
