7th - Finding and Evaluating Sources

Requirements:

- Find 2 Sources related to your topic/main points
- Using the "Evaluating Sources Checklist", determine which boxes each source checks. List the checked boxes using the key below:
    - RV = Relevance
        - 1, 2, 3
    - A = Accuracy
        - 1, 2, 3, 4
    - B = Bias
        - 1, 2
    - RE = Reliability
        - 1, 2, 3, 4
- For example, a source evaluation may look like ***RV 1; A 2, 3, 4; B 2; RE 1, 2, 3.***
- You DO NOT need to write out the full statement! Just the code (RV; A; B; or RE) and the number of the box (1, 2, 3, or 4).

It **IS** possible that your source won't check all the boxes. That doesn't mean it's a bad source to use! Determining credibility is a skill you have to develop, so use your best judgment to decide if a source will work for you.

You will have the opportunity to replace your sources later on if need be.

Due: Your finished work is due Friday 11/13 at 11:59pm. THIS ASSIGNMENT MUST BE COMPLETED IN THE FOLDER WITH YOUR NAME IN OUR CLASSROOM GOOGLE DRIVE FOLDER.

Please reach out for help if you're concerned you will not be able to complete any part of this assignment before the due date.
