

Opt-In Page for David

Content of the Opt-in page

- A disruptive headline that taps into the reader's pains and teases the solution

- Sub headline that gives away the dream state of the reader, making the page more desirable

- Footer with social proof of testimonials that provides a sense of trust in the reader and signals that there is someone with the same problem that turned his/her life for the better

A quick word with you David

Hey David, if you have some questions regarding this Opt-in page feel free to reach out to me.

I'm certain that the "Dopamine-bait" method will be a useful addition to the Emails you provide in your newsletter as well, as it will help you increase the traffic of your website, and keep your customers engaged with the content you provide.

If you are interested, I could spare some time this week to discuss this further with you over a zoom call, so feel free to give me a reply.
