The Charlotte Core: Preparing you for success in college, work, and life!

Quantitative/Data reasoning and critical thinking are two competencies that employers want and that you need to succeed in college and your daily life. The Charlotte Core provides you with many opportunities to develop these competencies in your general education courses, major, and co-curricular activities.

In this course (DEPT XXXX), you will practice quantitative/data and critical thinking skills. Courses in your major will build on the skills you develop in this class and provide you with even more opportunities to practice them. Assignments from this course may be used for general education continuous learning improvement regarding the competencies. All identifying information will be removed.
