

Reporting Tool

What systemic actions and strategies will contribute to building capacity, engaging learners, and creating paths for success?

PRINCIPLES TO GUIDE EDUCATION

The Reporting Tool provides a qualitative means to report achievement in professional learning by sharing significant strategic pathways and key learnings. The Reporting Tool includes the process of planning and facilitating the professional learning as well as the products and templates created by educators. The Reporting Tool serves as an important means of communicating achievement as well as it demonstrates a roadmap of successful learning which other educators can follow.

Guiding Principle	Professional Learning Achievements	
	Process of planning and facilitating the professional learning	Products and templates created which demonstrate achievement
• learner-centered		
• shared responsibility and accountability for results		
• engaged communities		
• inclusive, equitable access		
• responsive, flexible approach		
• sustainable and efficient use of resources		
• innovation to promote and strive for excellence
