

FOR IMMEDIATE RELEASE

**AFROJACK COLLABORATOR RICKY BREAKER RELEASES FRESH SINGLE
“INDEPENDENT” ON NEW RECORD LABEL.**

The first of many upcoming sounds to feature on newly founded label Reject Sound.

Known for his work on Afrojack’s “No Tomorrow” featuring OT Genasis, Belly & himself, DJ/Producer Ricky Breaker is back bringing his Caribbean flavours to electro house anthems.

Released on 29th January 2018, this track and further crowd hypers will be released via Reject Sound, a label which is dedicated to and promising “THAT TRUE SOUND”.

From Surinam, South America, the former dancer took his breakdancing talents from the dance floors of Paramaribo, to Rotterdam’s Hip-Hop House.

Feeling restricted in dance, with visions shifting to music production, a DJ set-up in his uncle’s cafe basement was the start of Breaker’s beat-loving talents, transferring movement skills to audio art.

Providing essential sounds at house parties, garden gatherings, and Club Vie in Rotterdam, Ricky Breaker’s eclectic touch gained the attention of iconic Dutch DJ Afrojack.

Under his artist development wing, Ricky Breaker’s first release “Breaker Breaker!” on Wall Recordings featured Kyle Massey, as well as Breaker’s signature creativity for fusing Trap beats with heavy Caribbean influences.

Having already played at legendary party island Ibiza, 2018 sees Ricky Breaker as an unstoppable force to watch, with more unbelievable releases and collaborations to come!
