National Space Day at S.T.S. School

23, August 2024, STS School, AMU, Aligarh Celebrated National Space Day in response to the letter received from the Ministry of Higher Education, S.T.S. School, AMU Aligarh, celebrated **National Space Day on 23rd August 2024**. The event aimed to foster interest in space science and exploration among students and staff, aligning with the national initiative to promote scientific awareness.

The celebration commenced with the live streaming of the main event held at Bharat Mandapam, New Delhi. The Principal, teachers, and students gathered in the school's Audio-Visual (AV) Lab to participate in the live broadcast, ensuring that the entire school community could engage with the proceedings in real-time.

In addition to the live streaming, the program featured several enriching activities:

Special Lecture- An insightful lecture was delivered on recent advancements in space exploration, highlighting the importance of scientific research and innovation in understanding the cosmos.

Screening of Space-Related Videos- A curated selection of space-themed videos was screened, captivating the students' imagination and enhancing their knowledge about various celestial phenomena and missions.

Poster-Making Competition- To encourage creativity and reinforce learning, a poster-making competition was organized. Students enthusiastically participated, creating informative and visually appealing posters related to space science and exploration.

Mr. Faisal Nafis, Principal, S.T.S. School, emphasized the significance of National Space Day in inspiring young minds to pursue careers in science and technology. His speech underscored the school's commitment to providing educational experiences that broaden students' horizons.

The successful organization of the program was made possible through the dedicated efforts of Dr. Tanweer Husain Khan (Vice Principal), Mr. Farhan Habib, Mr. Mohammad Mansoor Khan.
