

MEMORIAL SCHOOL PARENT INVOLVEMENT STATEMENT

Memorial School Parent Involvement Statement

At Memorial School, our mission is to create a safe, inclusive, and intellectually enriching environment where every student feels valued and inspired to become a lifelong learner. We believe that a strong partnership between home, school, and the broader community is key to our shared success.

The Memorial School Community Council is committed to enhancing parent involvement by supporting efforts that include:

- Building strong, positive relationships between school and home.
- Fostering a school environment that welcomes and encourages parent participation.
- Promoting open and effective communication between families and staff.
- Creating a welcoming and supportive atmosphere for all parents.
- Upholding the student-parent-school compact, which outlines how we'll work together to support student growth and success.
- Collaborating with the Bedford School District's guidance team to provide resources for crisis support and parent education.

We actively invite parents to engage in school activities, stay informed about their child's progress, and participate in educational programs. Among all the adults in a child's life, parents have the greatest influence on their development. The time and care parents invest—and the relationships they build—play a vital role in shaping children's learning and success.

Because of this, parents are essential partners in education. To foster a strong, collaborative relationship between school and home, our staff is committed to listening to parents and understanding their goals and expectations for their children.
