RESOURCES

Resources from Monday's class:

- **Tools:**
 - The Morning Pages exercise: <https://juliacameronlive.com/basic-tools/morning-pages/>
 - InferKit Demo: <https://app.inferkit.com/demo>
 - LAIKA: <https://www.writewithlaika.com/>
- **Playlist:**
 - With Those We Love Alive: <https://slimedaughter.com/games/twine/wtwla/>
 - My Father's Long, Long Legs: <https://ztul.itch.io/mfill>
 - The Writer Will Do Something: <https://matthewseiji.itch.io/twwds>
- **Additional Resources:**
 - Recorded Meditation: <https://soundcloud.com/charlene-putney/decant-gentle-meditation>

Resources for Saturday's workshop:

- Twine: <https://twinery.org/>
- More resources: <https://alphachar.com/manuskriptsolen>

Resources for Sunday's workshop:

- Midjourney: <https://www.midjourney.com/home/>
- LAIKA Discord (with inbuilt Midjourney channel): <https://discord.gg/cdgnWRqgpZ>

- Twine cookbook: <http://twinery.org/cookbook/>
- Harlowe manual: <https://twine2.neocities.org/>
- Itch.io (for publishing): <https://itch.io/>

Additional Reading/Watching Resources:

- GDC Vault free content: <https://www.gdcvault.com/free/>
- Emily Short's blog: <https://emshort.blog/>
- Char's email address for any questions: charlene.putney@gmail.com

Additional Resources for Specific Situations:

- Resources for making an inventory:
 - <https://www.youtube.com/watch?v=VC7TuFG1WYg>
 - <https://www.jezner.com/2021/03/16/twine-2-tutorial-creating-basic-inventory/>
- A game with a timer!
 - <https://w.itch.io/end-of-the-world>

Quick Code Snippets:

- Link = `[[link]]`
 - If you want to use a different word to link to the same passage, then `[[new word->link]]` will work.
- Image =
- `` Using an image as a link: `[[->link]]`
 - You can align your images with ``
 - Sizing: ``
- Sound = `<audio src="link" autoplay>`
 - If you want the sound to loop, then `<audio src="link" autoplay loop>`
 - The sound must be directly linked -> ie. the link ending should be .mp3 or .wav, etc.
 - It won't work on the first passage because most browsers require you to interact with the content before they will allow auto-play.
 - You can upload sounds to opendrive.com.
- Simple CSS for Styling
 - Super simple:

```
tw-story {
    line-height: 1.4;
    background: #ffffff;
    color: #000000;
    font: 135% Georgia, sans-serif;
}

tw-link, .enchantment-link {
    color: #ff9933;
    font: 100% Arial, sans-serif;
    font-style: normal;
    line-height: 0.8;
}
```

- Slightly more complicated:
<https://github.com/danieltalsky/twine-css-template/blob/master/css/Harlowe.css>
- Fancy text style effects: https://twine2.neocities.org/#macro_text-style
- Easy Timer:
 - <https://damonwakes.wordpress.com/2019/01/19/twine-for-beginners-timers-and-live-text/>
- - (set: \$counter to 5)
 - You have |amount>[\$counter] seconds left!
 - [DIN TEKST]
 - [[Run]]
 - [[faster]]
 - [[Run run run]]
 - (live: 1s)[
 - (set: \$counter to it - 1)
 - (if: \$counter is 0)[(go-to: "HVOR DET SKAL HEN, HVIS TIMEREN LØBER UD")]
 - (replace: ?amount)[\$counter]
 -]
- Text delay
 - Brug koden nedenfor
 - Efter live, skriv antal sekunders delay
 - (live: 3s)[
 - (stop:)
 - TEKST HER]
 - }
