## GOOGLE DOCS HELP

The most important thing to know about a Google Doc is that YOU CANNOT BREAK IT! What this means is that Google Docs automatically saves your work AND it saves old versions, too. So even if you erase everything on the page, it is easy to go back and restore a previous version. Here are some more handy tips to get you started, but for more questions, email [cynthia.sarver@gmail.com](mailto:cynthia.sarver@gmail.com).
