

2024-2025

Model United Nations (MUN)

The purpose of this club is to increase knowledge about international issues, policy making and the activities of the United Nations. Students also gain valuable skills in public speaking, research and writing, negotiation and powers of persuasion, leadership, organization, and interpersonal communication. Students gain these skills through club activities and, most importantly, by playing the role of United Nations delegates at MUN conferences. This club is a unique opportunity to help students become more knowledgeable and active global citizens.
