Parents and Guardians,

Although we have planned for in-person learning throughout the 2021-2022 school year, at this time, school administrators feel it is necessary to shift to distance learning for a two week period.

On Wednesday, August 25th, all Pre-K through 5th grade SCES students will be expected to login to Google Classroom to view and complete their assignments. Your child's teacher will have the assignments uploaded, as well as directions on how to access the material. Any specific Google Classroom questions should be directed to the teacher through their school email.

Because we are expecting your child to attend in a virtual classroom, each student will be supplied with a school-issued Chromebook, as well as a charger that will go home today with your child from school. It is necessary for your child to use the school-issued Chromebook to ensure that all school programs will function during this virtual period. If your student is currently absent or quarantined without their Chromebook, please contact the school to schedule a time to come by and pick their Chromebook up. Most of our students at SCES have purchased Chromebook insurance; however, if you have not purchased insurance, you will be responsible for any damage to the Chromebook during this two week period.

If you need to pick up your child's Chromebook or work, please come during the scheduled time. Chromebook insurance is \$25. If you would like to purchase this insurance, please follow the schedule below to see SCES front office staff in the media center.
