INTRODUCTION

The introduction contains the background of the study, research problem(s), research hypothesis for a quantitative study, literature review which indicates a gap in the literature review or theoretical framework presenting how the present research fits with the existing studies, and research question(s) or research objective(s).

All introduction should be written in the forms of paragraphs. Introduction is written in Times New Romans using 12 font size, single-spaced.

METHOD

This section describes in detail how the research was conducted; description of the research setting, research design, data sources, data collection, and data analysis. This section is presented in the form of paragraphs.

Method is also written in Times New Romans using 12 font size, single-spaced.

FINDINGS AND DISCUSSION

This section presents the results of the study; the collected data and analysis of those data with regards to the issues the study focusing on. The Findings should be written clearly and concisely. It may include numbers, tables, and figures (e.g., charts and graphs).

The Discussion should provide justification of your findings with regards to the relevant existing references. This section allows you to offer your interpretation and explain the meaning

of your results. Emphasize any theoretical or practical consequences of the results. A separated Findings and Discussion sections is also acceptable. Findings and Discussion are written also in Times New Romans using 12 font size, single-spaced.

Table 1: Title of table 1

Figure 1: Title of figure 1**Figure 2: Title of figure 2**

CONCLUSION

The main conclusions of the study are presented here. It contains summary of the answers to the research question(s)/objective(s), limitation(s) of the study, and suggestion(s) for practitioners, policy makers, and/or further research.
