

NAPhCxii 2023 at Concordia University

See [separate schedule](#) for Satellite Workshop on Sunday, May 14 also in [MB 9th floor, Rooms E-F-G\(combined\)](#)

Thursday, May 11	
19:00	Informal meet and greet at Brass Door Pub 2171 Crescent St, Montreal, Quebec H3G 2C1
Friday, May 12 MB 9th floor, Rooms E-F-G(combined)	
8:30	Coffee and carbs
9:10	Opening remarks
9:20	Invited Speaker: Harry van der Hulst (UConn): What can stress tell us about the structure of synthetic compounds?
10:10	Kyle Gorman (CUNY/Google): Asymmetries in Latin glide formation
10:40	Break
11:10	Hironori Katsuda, (Scarborough), Gemma Repiso-Puigdelliura (McMaster) & Kie Zuraw (UCLA): Phonological process application in code-mixed utterances
11:40	Sam Mandal (Concordia): Implications of a Completely Flat Phonology
12:10	Lunch at your choice of local restaurant
2:00	Invited Speaker: Alexander Chabot (Maryland): Sounding phonology: Correlational neurolinguistics and theories of representational and computational complexity
2:50	Michael Rivera (Mayagüez): On Solving the Neutralization Problem

3:20	Break
3:40	Heather Newell (UQAM) & Shanti Ulfsson (MUN): A Specific Fucking Pattern: The precise nature of stress-pivot infixation
4:10	Bert Vaux and Romay Whittall, (Cambridge): Lengthening by Encliticization in Khdrbeg favors a distributed prosodic model
6:30	Conference Dinner at Devi Restaurant on Crescent Street
Saturday, May 13 MB 9th floor, Rooms E-F-G(combined)	
9:30	Coffee and carbs
10:00	Björn Köhnlein (OSU) & Oscar Coppola (OSU): How to store metrical trees in the lexicon without overgenerating
10:30	Shanti Ulfsson (MUN) & Julian Bradfield (Edinburgh): Against 'Gang effects' in Phonology: The Mirage of Gradience in !Xóõ Vowel Raising
11:00	Break
11:20	Invited Speaker:-Hannah Sande (Berkeley) Discontinuous harmony and its implications for the syntax/phonology interface
12:10	David Ta-Chun Shen (Concordia): Menominee mid vowel alternation: a Search-based account
12:40	Lunch at your choice of local restaurant
2:10	David Odden (Washington): A Theory of Phonology
2:40	POSTER SESSION and coffee
3:40	Shengyun Gu, (UConn), Diane Lillo-Martin (UConn) & Deborah Chen Pichler, (Gallaudet): Phonological Development in ASL-Signing Children: Pseudosign Repetition
4:10	William Idsardi (Maryland) & Eric Raimy (Wisconsin): Assembling pronunciations incrementally

Posters

Recommended size is A0 paper in landscape mode. The posterboards can handle 3' H x5' W posters. We'll provide tacks.

- Jillian Warman (Western) The Sonorancy of Russian /v/ in an Optimality Framework
- Sam Mandal (Concordia) Equally Bizarre: Partial Veridicality between Phonological Primes and Phonetic Substance
- Mohammed Al-Ariqy (Utah) The Phonology of Definite Determiners in Yemeni Tihami Arabic: Understudied Cases
- Avleen K Mokha & Heather Goad (McGill) Why Syllables Need Structure: Evidence from Hindi
- Stephanie Dossett (U. Washington) Morphologically Conditioned Phonology : Evidence from Biloxi Vowel Hiatus
- Jeff Lamontagne (Indiana) Returning to our feature (re)presentation: Marginal contrasts and conflicting evidence for phonological status
- Rim Dabbous (Concordia) Time and phonological representation
- Anna Preßler (Goethe-University) Do prosodic factors affect the positioning of French attributive adjectives? Evidence from an acceptability judgment task
- Dehbia Gaoua (Boston University) Questioning lexical stress in underdescribed Kabyle-Tamazight (Berber): Evidence from acoustic analysis of Kabyle dominant speakers' speech production
- Markus Pöchtrager (Vienna): Yoruba vowels, [ATR], and the representation of openness
- *Alexandra Shikunova & Daniar Kasenov (HSE Moscow) [Russian iotation: length is key](#)
- *Alexandra Shikunova (HSE Moscow) [A case for stress as empty CVs: glide epenthesis in Moksha](#)
- *Daniar Kasenov (HSE Moscow) Power of direction in Precedence-based (morpho) phonology: [ABA in Terek Kumyk](#)

*Presented online by appointment with authors, due to visa issues.
