### **1. HEADING 1**

This template, modified in MS Word 2007 and saved as a “Word 97-2003 Document” for the computer, provides authors with most of the formatting specifications needed for preparing electronic versions of their papers. Do not submit papers written with other editors than MS Word, it will not be accepted for review. Save the files to be compatible with many versions of MSWord (avoid other document extension than \*.doc or \*.docx). **Do not submit papers without performing a carefully spellcheck and English language grammar check.** The reference number should be shown in square bracket [1].

#### **1.1 Sub Heading 1**

Figure 1: Name of figure (with Line spacing 1.5)

Graphs or figure and other numbered figures should appear throughout the text as close to their mention as possible. Figures and tables must be centered in the column. Large figures and table can be in one column in order to see them more clearly and avoid placing them in the middle of columns. Photos must be crystal clear with such resolution to allow fine details visibility. Importing images from other articles or books it's totally forbidden unless they are cited.

Table 1: Name of table (with Line spacing 1.5)

| Header | Header | Header | Header |
|--------|--------|--------|--------|
| Data   | Data   | Data   | Data   |
| Data   | Data   | Data   | Data   |

Equations should be numbered consecutively throughout the paper. The equation number is enclosed in parentheses and placed flush right, as in (1). Your equation should be typed using the Times New Roman font (please no other font). To create multileveled equations, it may be necessary to treat the equation as a graphic and insert it into the text after your paper is styled.

$$F(x) = x_1 + x_2 + x_3 + \dots \quad (1)$$
