Abstract

Abstract is written in italics in English within 200-300 words. Abstract contains research objectives, methodology, findings/analysis/argumentation, and conclusion

Key Words

It contains 5 the most important words taken from the title and content of the article.

E.g. Keyword 1, keyword 2, keyword 3, keyword 4, keyword 5

1. Introduction

It contains research background, problem formulation and research purposes, and relevant and up-to-date theoretical basis, and proposed argumentations to address problem formulation.

It contains research background, problem formulation and research purposes, and relevant and up-to-date theoretical basis, and proposed argumentations to address problem formulation.

2. Literature Review/Analytical Framework

It contains theories / concepts / approaches / perspectives / paradigms, etc. which will be used to analyse certain cases or selected topics. The naming of the literature review / analytical framework may be adjusted or replaced by the names / terms that reflect the conceptual or theoretical framework to be used (e.g. Balance of Threat, Soft Power, Hard Power, Economic Diplomacy, and etc.)

It contains theories / concepts / approaches / perspectives / paradigms, etc. which will be used to analyse certain cases or selected topics. The naming of the literature review / analytical framework may be adjusted or replaced by the names / terms that reflect the conceptual or theoretical framework to be used (e.g. Balance of Threat, Soft Power, Hard Power, Economic Diplomacy, and etc.)

3. Research Method

Explain chronological research, including how to prepare materials research, design of the study and research procedures (in the form of an algorithm, pseudocode or other). Minimum research method consists of research type, type and source of data, data collection techniques, and data analysis techniques.

Explain chronological research, including how to prepare materials research, design of the study and research procedures (in the form of an algorithm, pseudocode or other). Minimum research method consists of research type, type and source of data, data collection techniques, and data analysis techniques.

4. Results and Discussions

It contains the results and analysis done with an emphasis on the answer and argumentation to address the problems formulated in the background. Results and discussion can include images, charts, tables, etc. are placed in the middle of the page, and further described/narrated in the article.

4.1. Sub-heading of the results and discussions

Tables and Figures are presented center and cited in the manuscript. The figures should be clearly readable and at least have a resolution of 300 DPI (Dots Per Inch) for good printing quality. Table made with the open model (without the vertical lines) as shown below:

5. Conclusion

It contains an answer or explanation to the problem of research. Moreover, it can also be added to the development prospects of the research and the further application in subsequent studies. Provide a clear and concise conclusion. Do not repeat the Abstract or simply describe the results of the research. Give a clear explanation regarding the possible application and/or suggestions related to the research findings.

Author Contributions

For research articles with several authors, a short paragraph specifying their individual contributions must be provided. The following statements should be used "X.X. and Y.Y. conceived and designed the experiments; X.X. performed the experiments; X.X. and Y.Y. analyzed the data; W.W. contributed reagents/materials/analysis tools; Y.Y. wrote the paper." Authorship must be limited to those who have contributed substantially to the work reported.

Authorship must be limited to those who have contributed substantially to the work reported.

Funding (Optional)

Declare the funding/financial support that you got for this study and/or its publication.

Conflicts of Interest

State a conflict of interest or state "Authors may declare no conflict of interest." Authors must state any circumstances that may be deemed inappropriate that could affect the

interpretation of the reported research results. Any role of the funders in the research design; in the collection, analysis or interpretation of data; in the writing of the manuscript, as well as in the publication must be stated in this section. If there is no role, please state “The funders have no role in any of the related stages”.

State a conflict of interest or state “Authors may declare no conflict of interest.” Authors must state any circumstances that may be deemed inappropriate that could affect the interpretation of the reported research results. Any role of the funders in the research design; in the collection, analysis or interpretation of data; in the writing of the manuscript, as well as in the publication must be stated in this section. If there is no role, please state “The funders have no role in any of the related stages”.

Generative AI statement

Declare the use of generative AI (if any) in the creation of the manuscript.

Informed consent statement

Present informed consent in your study.

E.g. Informed consent was obtained from all subjects involved in the study (verbal). A written consent was not possible to be secured due to the request of the subjects involved.

Ethics approval / Institutional Review Board Statement

Present ethics approval of your study.

About the author(s)

Author 1 is a His research interest focuses/includes Present other important or relevant information.

ORCID

Author 1: <https://orcid.org/xxxx-xxxx-xxxx-xxxx>

Author 2: <https://orcid.org/xxxx-xxxx-xxxx-xxxx>

Author 3: <https://orcid.org/xxxx-xxxx-xxxx-xxxx>

Data availability statement

E.g. Data may be obtained upon request to the authors.

References (Please use APA 7th Edition in alphabetical order, include DOI Numbers if available)

The Hasanuddin Journal of Strategic and International Studies (HJSIS) uses APA 7th Edition writing style in the References at the end of the manuscript. Cite only items that you have read and written (books, articles, theses, research reports and other sources). **Please use Reference Manager Applications like EndNote, Mendeley, Zotero, etc.** Use other published

articles in the same journal as models. All publications cited in the text should be included in the References section and arranged alphabetically. For example:

- Bradburn, N., Sundman, S., & Wansink, B. (2004). Asking questions: The definitive guide to questionnaire design. San Francisco: Jossey-Bass.
- Koremenos, B., Lipson, C., & Snidal, D. (2001). The rational design of international institutions. *International Organization*, 55(2), 761–799.
- Lipson, C. (1991). Why are some international agreements informal? *International organization*, 45(2)
