

Nov 1, 2016

How to Join, queries, and relevant links:

- https://wiki.mozilla.org/Add-ons/Contribute/Goodfirstbugs_triage

Attendees:

- Jorge
- Amy
- Andrew
- andreas

This time's discussion/action items:

- WE triage will begin at the half-hour
 - Nobody showed up :-)
 - Will re-confirm times

Last time's discussion/action items:

- ~~We covered 4 bugs: 1215060 (wontfix), 1215064 (approved), 1215065 (wontfix), 1223649 (wontfix).~~
- ~~This first instance of the meeting didn't have everyone we wanted on the invite list. Apparently the next instance on Nov 1st does have all the right people.~~
- ~~One possible change to the timing is to dedicate the second half to the API triage so it doesn't conflict with the Release Management meeting, but that depends on how this works with other attendees.~~
- Andy will look into setting up some WebExtensions milestones so we can tag approved API requests accordingly. This way we can identify the APIs we want/need to have before we drop legacy APIs, or even earlier.
