

Gang Representation

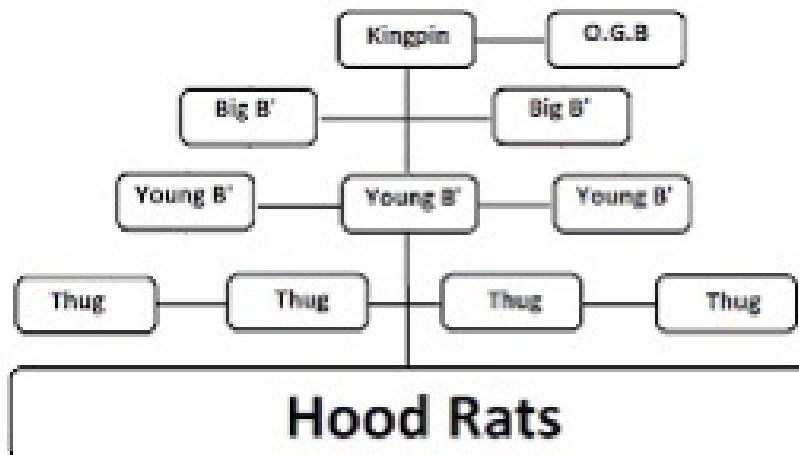

North Side Gueyes. | NSG for short are a low key but present street gang hailing from Chicago city composed by minorities and Latinos ONLY. All true OGs have a tattoo with the NSG signs on some not to visible part of their body resembling the true brotherhood. North Side Gueyes is a tight-knit group that only seeks members that retain a similar philosophy of staying out of the spotlight. That is not to say that NSG does not do things on the side, but it is akin to avoiding other families or worse, law enforcement. NSG maintains itself as a corporation with members who do somewhat questionable things like hustling, robberies, drugs and gun racketeering. NSG makes sure to look after their own. They are not your typical gang – they won't kill their own, they would do anything for them. Once someone is truly inducted in NSG, they never roll on their own, they are in for life. NSG is what the mob families wish they could have: loyalty, family and comradery.

Gang Originals

During the establishment of NSG in the 1970s minorities gathered in Chicago's north side looking to earn a living in those harder times. North Side Gueyes was a blessing for the african american people of the hoods of chicago, opening economic opportunities never seen before for minorities. Some of the first members are well known in the underground world, names like Biggie, Tafari, Tekka and some others. After the 70s North Side Gueyes looked to expand their regime to another big city landing in New York City where they planned to keep expanding and make new friends.

Gang Structure

What do we bring to the server

We would bring organic gang RP to diverge as we've done before, this time it will be different being more serious but from time to time tryna be goofy and funny. I think this will add another full layer to roleplay making escenarios more interesting and intriguing while also adding humor to it. All of or members as of now are already experienced roleplayers that have been playing MafiaRP for several years so we also know how other factions work as well as the rules.
