

How to Participate

Membership in the group is gated via a NFT.

There are 3 tiers of NFTs. The tiers will dictate the allocation each NFT holder can apply for per deal.

- Emerald (Mint Price = 1 ETH) - allocation of up to \$5,000 per deal
- Ruby (Mint Price = 1.5 ETH) - allocation of up to \$15,000 per deal
- Diamond (Mint Price = 2 ETH) - allocation of up to \$30,000 per deal

Each NFT comes with a 12 month subscription to everything we do at Revelo Intel including our private members only discord. That subscription sells for \$1,399 so factor that in when considering the price of the NFT you wish to mint.

The NFT will give you access to the Ventures discord where deals are released and discussed and then once we build it the website where we will manage all the administrative work associated with the syndicate.

There will be a total of 400 NFTs in the series, but only 200 will be released in April 2024. Half of these are already assigned to existing syndicate members so the public sale will be for around 100 spots. In addition:

- no fixed supply per tier but the mint will stop once we reach a total of 200 NFTs minted
- NFT's fully tradable on the open market so you can exit the group whenever you like.
- there will be a 5% royalty to Revelo on secondary sales

The remaining 200 will be released based on market demand, and only if/when we think it will benefit the syndicate. Future releases will always be at higher prices than the previous round. We will tightly control the supply of the NFTs. We want to ensure that members can always exit their positions from the syndicate without losing money on the NFT.

How to apply for membership

- Complete this [form](#) in order to get your address whitelisted so you can mint a NFT.
- Mint will occur over the next few days and before April 10th.
- You will get an email with the mint site when it's ready and open.
- First come first served. Completing the form doesn't guarantee a NFT.

- Once 200 units are minted we will shut it down.
