

Deeper Learning & Social Media Circle - Self Assessment

This self assessment is designed to give you time and space to reflect on your practice as an educator. Look at each of the wedges on the deeper learning circle. To what extent, do you as an educator prepare your students to master each of these competencies? Give yourself a score from 1-10 for each wedge. If we've missed something important you can include it on the last wedge.

What did you notice as you scored yourself on these wedges?

To what extent, do you use social media in your teaching for each of these wedges?

Where do you excel?

Where do you have room for growth?

Pick one wedge that you would like to work on. What would it take to move your score to a 10/10?
