

TRANSFER TO BTC ACCOUNT:

Register here <https://block.io/>

Create a new BTC account

Transfer money to this account from here <https://testnet.coinfaucet.eu/en/> (The limit per day is limited to the output)

Money should appear on your account here <https://block.io/>

Then make a transaction to your Exscudo exchange BTC account

Wait for transaction up to thirty minutes

TRANSFER TO ETH ACCOUNT:

Go to <http://faucet.ropsten.be:3001/>

Enter your Exscudo exchange ETH account in the field "Enter your testnet account address"

The transfer to the specified account is generated in section "Faucet queue"

Wait a bit for confirmation.

1 ETH token will appear on your exchange account. You can get only one token for one account.

TRANSFER TO EON ACCOUNT:

Make a registration here <https://eontechnology.org/testnet.html>

Use this instruction for the following steps

[https://blog.exscudo.com/exscudo/how-to-connect-to-the-eon-blockchain-testnet-comprehensive-instruct ...](https://blog.exscudo.com/exscudo/how-to-connect-to-the-eon-blockchain-testnet-comprehensive-instruct...)

At last make a transaction to your exchange account from downloaded terminal.
