

CALL FOR APPLICATIONS

Software Developer

Deadline December 22, 2021

ABOUT THIS PROJECT

This is a project supported by grant funding from the Caribbean Development Bank's Cultural and Creative Industries Innovation Fund (CIIF) which will provide capacity development, platform-specific training, support for online streaming activity regularisation and opportunities for monetisation of online content for an estimated one hundred regional creative industries practitioners.

WHO WE ARE

Incorporated in 1997, Headline Entertainment Company Limited is focused on three main areas, talent booking, entertainment consultancy and public relations. Headline Entertainment continues to represent a diverse pool of Caribbean based entertainers including performing artistes, musical bands, sound systems, disc jockeys and more exclusively and non-exclusively. Headline Entertainment maintains a significant presence in the Caribbean and chiefly in the reggae music business as a foundation booking agency.

CaribTix has served as a valuable partner for many types of events, from small clubs to international festivals and major sporting events throughout the Caribbean and the US. Past and current clients include Reggae Sumfest (Jamaica), Jerk Festival USA, Cup Match Salute Music Festival (Bermuda), ISSA Track and Field Championships (Jamaica), Miami Carnival (FL), and Hennessy Artistry (Barbados, Bahamas) just to name a few.

ABOUT THIS JOB

Headline Entertainment Company Limited and CaribTix are seeking applications for a Software Developer to upgrade an online streaming platform for creatives.

Roles and Responsibilities:

- Collaborating with management, departments and customers to identify end-user requirements and specifications.
- Designing algorithms and flowcharts to create new software programs and systems.
- Producing efficient and elegant code based on requirements.
- Testing and deploying programs and applications.

- Troubleshooting, debugging, maintaining and improving existing software.
- Compiling and assessing user feedback to improve software performance.
- Observing user feedback to recommend improvements to existing software products.
- Developing technical documentation to guide future software development projects.

Qualification and Requirements

- Bachelor's or Master's degree in Computer Science or a related field
- 3+ years of experience in mobile application and game development
- Proficiency in popular coding languages including Python, Java and C++ and frameworks or systems such as AngularJS and Git
- Excellent knowledge of the software development life cycle
- Strong problem-solving and communication skills
- Knowledge of Object-Relational Mapping frameworks
- Experience with Agile and Scrum development methodologies
- Ability to learn quickly and work independently or as part of a team
- Must be from one of the following CDB Borrowing Member Countries: Anguilla, Antigua and Barbuda, Barbados, Belize, British Virgin Islands, Cayman Islands, Dominica, Grenada, Guyana, Haiti, Jamaica, Montserrat, Saint Kitts and Nevis, Saint Lucia, Saint Vincent and the Grenadines, Suriname, The Bahamas, Trinidad and Tobago Turks and Caicos Islands.
