

## 2/11 Notes:

Hi Tim be sure to watch your pitch so you don't go too high on some of those words

Energy! energy now

Let's try to make the second half of Surrey not so bouncy as we go back to the Haybales

Let's watch a voice pitch we're getting really high

Tim we got a watch that run in section 1 Gretchen chasing you during Surrey

Talk to Nelly about the broom because she needs to talk about the broom

Talk to Nelly about Eller

Make sure that you start with your heads really low on the seven stories high and a big woo after that

Kansas City- got to keep your heads up guys

OK make sure we turn to the audience on the roping part

No Conversations in the back please

I like the conversation groups in the back during Many a New Day girls just keep it rolling

Remember Posture guys we can't slouch

Curley and Laurey can we work on making that waltz a little smoother?
