**August Maintenance Report**

- We have roofers scheduled to repair some leaks in the counselor's office at AHS.
- I have finally completed all of the moving projects (I Hope!) After I moved the contents of Perritt and Peake, I moved SPED offices, food service office and the custodial office into the old Goza main building. I moved K-8 ALE classrooms and offices to the Safe Room and 9-12 HUB and ALE classrooms to AHS. I also moved all the contents in dry storage, freezers, and walk-in coolers at Perritt & Peake.
- Furniture installers with L&M Furniture have installed all of the new furniture at Peake.
- The stadium light equipment has been delivered. Installers are scheduled to be here August 25<sup>th</sup>.
- Nabholz has repaired the damaged floor tile that was damaged from a condensation line being damaged during the construction of Peake.
- Due to the excessive heat, we are having a lot of HVAC calls. Fortunately, we have hired David Loe and he has been a big help in getting these issues resolved.
