**The Most Extreme Divers**

Go to: <https://www.youtube.com/watch?v=B2f669rSC54&t=1482s> (or search YouTube for “most extreme divers” and select the video that is 48:51 long)

Different species have adapted to life in the water in a variety of ways. Watch the video and detail how they have adapted physically/physiologically as well as behaviorally. Keep in mind the information you have collected up to now regarding the dive response and an organism’s ability to maintain homeostasis.
