

Methods in Range Ecology

Final Project Poster Rubric

	Poor	Needs Improvement	Average	Excellent
Introduction and Objectives	<i>No introduction to the topic of study and does not state objectives</i>	<i>Minimal introduction to the topic of study; states objectives</i>	<i>Some introduction and justification of the topic of study; states objectives</i>	<i>Clearly introduces and justifies the topic of study; states objectives clearly</i>
	0	6	8	10
Study Site (can include pictures/maps of the site)	<i>No study site description</i>	<i>Minimal study site description</i>	<i>Some study site description, can envision site</i>	<i>Study site description allows audience to clearly understand the characteristics of the site</i>
	0	6	8	10
Methods (can include pictures of vegetation sampling techniques)	<i>No description of methods</i>	<i>Description of methods given, but unclear</i>	<i>Some description of methods, including analysis used, but could not repeat</i>	<i>Could repeat the methods used, including analysis</i>
	0	6	8	10
Results (can primarily be figures and tables)	<i>No results given</i>	<i>Results briefly stated, but unclear</i>	<i>Some results given, but not all objectives addressed</i>	<i>Results given are clear and address stated objectives</i>
	0	6	8	10
Discussion (bullet points okay, be sure to elaborate in presentation)	<i>No discussion</i>	<i>Brief discussion, but unclear on implications of results</i>	<i>Some discussion, but not all results discussed</i>	<i>All results discussed, with management implications clear (or challenges of study discussed)</i>
	0	6	8	10
Total points possible:				50
