

Job Description:

As a .NET Developer with 3-5 years of experience, you will play a key role in designing, developing, testing, and maintaining software applications using the Microsoft .NET framework. You will collaborate with cross-functional teams to deliver high-quality software solutions to our clients.

Key Responsibilities:

- Collaborate with senior developers to understand project requirements and specifications.
- Develop and maintain .NET applications using C# and other relevant technologies.
- Write clean, efficient, and maintainable code.
- Perform debugging, troubleshooting, and bug fixing.
- Work on tasks related to database design and optimization.
- Assist in creating technical documentation for projects.
- Keep up-to-date with industry trends and best practices in .NET development.
- Proficiency in database design and development using SQL Server or other database systems.

Qualifications:

- Bachelor's / PG degree in Computer Science, Information Technology, or a related field.
- Strong proficiency in C# programming and the .NET framework.
- Experience with ASP.NET MVC or ASP.NET Core, Web API, MS SQL Server 2016 or more
- JSON, AJAX, OOPS concepts, Stored procedure, indexes, Loops
- Strong problem-solving and analytical skills.
- Excellent communication and teamwork skills.
- Experience with containerization and orchestration tools (e.g., Docker, Kubernetes)
- Knowledge of web development technologies such as HTML, CSS, and JavaScript.
- Familiarity with version control systems (e.g., Git).
- Exposure to agile development methodologies.
- Knowledge of cloud platforms such as Azure or AWS.
- Any relevant certifications in .NET development.

Benefits:

- Competitive salary.
- Opportunities for skill development and career growth
- Mentorship from experienced developers
- Friendly and collaborative work environment.
- Health and wellness benefits
- Flexible working hours (if applicable)
