Cognition & Consciousness

Instructions

Watch the video about bundles.

This bundle was created to edify and support your research interests. Recommended resources have the first word of the reference highlighted with light text over a dark background (e.g., Akbarian).

Some of the links go to research paper vendor sites with just the abstract available. To read the full article, sign in to HOLLIS Library and do the title search there.

Keywords in search: Bayesian cognition; cognition and behavior; cognition and education; cognition and emotion; cognition and language; cognition scales; cognition; cognitive dissonance; consciousness; consciousness + attention; culture and cognition; embodied cognition; everyday cognition; human cognition frameworks; human brain + cognition + neural underpinnings; neural networks; neuroimaging + cognition; neuroimaging + consciousness; spectrum of consciousness; theories of cognition;

If you wish, you can download this bundle.
