To summarize－Aia The Big

I chose this book out of ten to write a summary of what I read. The beginning of the book is interesting, using the name Eva to explain that she likes balance, it also explains that Ava often tries to balance the good and the bad when she encounters difficulties. The story mentions that Aiwa's class has a new classmate with the same name and surname, which puts Aiwa in a balance between good and bad. That day, the class was going to perform a stage play. Aiwa got the giant, but the new classmates got the fairy that Aiwa wanted to perform, and Aiwa was not happy. Little did they know that the new classmates had the same idea, so they made a big decision. On the day of the performance, Ms. Wu was very surprised that the roles of the two Ava switched, but the surprise was that the performance went very smoothly. No matter how they look or what they like, they complement each other in the process of performing on stage, giving them a balance, and finally gain a friendship.
