SIGNTECH Console Privacy Policy

Effective Date: October 20, 2026

1. Introduction

Welcome to SIGNTECH Console ("SIGNTECH," "we," "our," or "us"). We respect your privacy and are committed to protecting the privacy of everyone who uses our console and its applications.

This Privacy Policy explains how SIGNTECH handles user information when you access or use the console and the applications available on it.

SIGNTECH does not collect, store, share, or sell users' personal data through the console or its applications. Our goal is to provide a privacy-friendly experience without collecting personal information from our users.

2. Information We Collect

SIGNTECH Console and the applications available on it are designed not to collect personal information from users.

We do not intentionally collect or request information such as:

- Names, email addresses, or phone numbers.
- Home addresses or other personal contact details.
- Location data.
- Personal identifiers or user profiles.
- Browsing history or usage analytics linked to individual users.
- Payment information or financial details.

Users are not required to provide personal information to use the console or its applications, unless a particular feature explicitly states otherwise.

3. Data Storage

SIGNTECH does not store users' personal data on its servers or databases through the console or its applications.

Any information generated or temporarily processed by a device while running an application remains subject to that device’s operating system and local storage behavior. SIGNTECH does not intentionally retain personal user information.

4. Data Sharing and Selling

SIGNTECH does not sell, rent, trade, or share users’ personal data with third parties.

Since the console and its applications do not collect personal user data, we do not maintain personal data for advertising, marketing, profiling, or commercial purposes.

5. Third-Party Applications and Services

SIGNTECH Console may provide access to applications, software, or services developed by third parties.

Although SIGNTECH is designed not to collect, store, share, or sell user data, third-party applications or external services may have their own privacy practices. Users should review the applicable privacy policies of those services where relevant.

SIGNTECH is not responsible for the independent data-handling practices of third-party services outside our control.

6. Children's Privacy

SIGNTECH does not knowingly collect personal information from children or any other users through its console or applications.

Because we do not collect personal data, we do not maintain personal profiles or databases containing children's personal information.

7. Data Security

SIGNTECH is committed to maintaining a privacy-conscious console experience. By designing the console and its applications not to collect or retain personal user data, we aim to reduce privacy risks associated with the handling of such information.

However, no software, device, or digital service can be guaranteed to be completely free from security risks.

8. Changes to This Privacy Policy

We may update this Privacy Policy from time to time to reflect changes to the console, its applications, or applicable legal requirements.

Any revised version will be published through an appropriate SIGNTECH platform or distribution channel. The effective date at the top of this document will indicate when the policy was last updated.

We encourage users to review this policy periodically.

9. Contact Us

If you have questions, concerns, or requests regarding this Privacy Policy or SIGNTECH Console's privacy practices, please contact us at:

Email: olumidekingsley26@gmail.com

Console Name: SIGNTECH

10. Our Privacy Commitment

SIGNTECH is committed to providing a user-friendly console experience that respects user privacy.

Our stated policy is that the console and its applications do not collect, store, share, or sell users’ personal data.

By using SIGNTECH Console, you acknowledge that you have read this Privacy Policy.
