**Address:** Rock Hill, SC, 29732

### COMPANY OVERVIEW

OnSite Chiropractic Healthcare Solutions, LLC is a specialized mobile chiropractic healthcare contracting firm providing turnkey, non-pharmacologic neuromusculoskeletal care directly inside secure federal facilities. We specialize in clearing high-volume patient backlogs for federal institutions experiencing clinical staffing bottlenecks. By deploying self-contained, mobile clinical infrastructure (including portable treatment table and computer for documentation) directly within a facility's secure perimeter, we eliminate the substantial security risks, logistics friction, and high staffing costs associated with transporting or patient referrals to outside community providers.

### CORE COMPETENCIES

Our clinical delivery model provides comprehensive diagnostic and manual physical protocols designed for rapid institutional throughput:

- **Neuro-Musculoskeletal Management:** Advanced management of acute and chronic spinal pain, joint dysfunction, nerve impingement, dis-ease, reducing aches and pain.
- **Frontline Opioid Mitigation:** Delivery of evidence-based, non-pharmacologic interventions explicitly aligned with federal mandates to reduce opioid dependency and clinical pharmacy expenditures.
- **Preventative Clinical Intervention:** Early/Preventative management of physical ailments to arrest progression, minimizing long-term multi-disciplinary medical management liabilities.
- **Turnkey Mobile Deployment:** 100% self-contained mobilization requiring zero capital or equipment allocation from host facilities. Available for Single-Day Intensives or 2-Day Regional Backlog Block sessions.

### DIFFERENTIATORS

- **On-Site Security & Cost-Containment:** Saves thousands in institutional expenditure by eliminating the need for escorts, transport vehicles, and staff overtime for off-site medical runs.
- **Federal Alignment Matrix:** Our clinical protocols strictly adhere to the **NOPAIN Act** and the updated **CDC/CMS Clinical Practice Guidelines for Pain Management**.
- **Operational Agility & Scalability:** Fully prepared for nationwide deployment to any federal facility across the United States with flexible, negotiable block pricing structures.
- **Procurement-Ready Infrastructure:** Registered entity fully prepared to accept simplified acquisitions, micro-purchases, or direct regional medical purchase orders.
