

Step by Step Guidelines | HackMeOut Kyiv, 2021

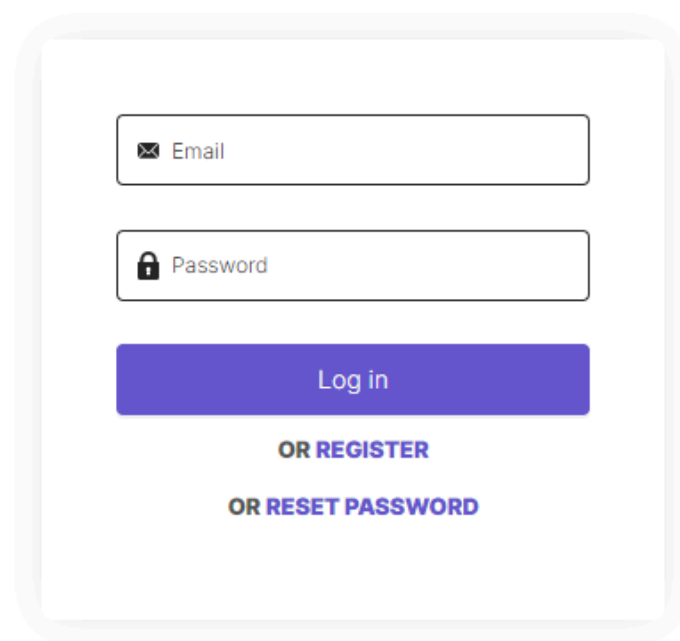

Dear participant,

We are glad to see you here at the HackMeOut Kyiv hackathon on Pozi.io.

Let's see how you can submit your idea step by step.

First things first:

1. You need to **register an account on [Pozi.io](https://pozi.io)**. If you have any trouble with the confirmation email, please contact Orsolya from Pozi at orsolyabojte@pozi.io or call her 0040758981278. Do not hesitate to contact her. Timing is not a problem for her.

A login and registration form for Pozi.io. It features two input fields: 'Email' with an envelope icon and 'Password' with a lock icon. Below these is a blue 'Log in' button. Underneath the button are two links: 'OR REGISTER' and 'OR RESET PASSWORD'.

Short intro. Example: Hi, I'm Nelson, but my friends call me Big Head. I'm a tech evangelist, I can help you with your demo, 'cause I already watched the Facebook movie, AI, The Net, and half of Tron. I also worked on projects like PiperChat and Nip Alert. And I was also on the cover of Wired. And actually inside too.

2021.09.10 10:00
- 3 Training on UX/UI
2021.09.10 10:00

APPLY HERE!

Get to know it!

HackMeOut Kyiv is a hackathon for change-makers who are passionate about learning new things, working hard and coming up with innovative solutions for contemporary problems.

A great thing about the hackathon in Kyiv is that it builds an international environment, where 60 participants from 10 different countries (V4 countries - Czech Republic, Hungary, Poland, Slovakia and Eastern Partnership countries - Armenia, Azerbaijan, Belarus, Georgia, Moldova, Ukraine) work together, approaching the problem from different sides, as each of them have different mentality, cultural background and points of view depending on where they come from. Creating that kind of environment is crucial for working on IT products, which today grow and move very fast from local to global markets.

- Furthermore, the next step is to visit the Ideas page on Pozi. There will be a button **“Create new.”** Click on the button, and **complete the idea form.**

A screenshot of the 'Customize your awesome idea' form on Pozi. The form has a title field, a category dropdown (currently 'Transport'), a description field, and a prototype link field. To the right of the description field are checkboxes for 'Shareable' and 'Commentable', and an 'Upload picture' button. Below the form is a 'Team' section with a dropdown for 'Select user', a 'Title' field, a 'Description' field, and an 'Add' button. At the bottom of the form is a 'Share it' button.

4. However, if your application is successful, you need to **visit the [idea subpage under the competition](#)**. There will be a purple button, **“Submit idea.”** Click on this button. Then you’ll see a popup, where you can choose your idea from the list. After that, you just **click on the submit button**.

The image shows the HackMeOut Kyiv event page. The main header features a group photo of participants and the event name. Below this, there are tabs for Summary, Participants, Ideas, Feed, and Winners. The 'Ideas' tab is active. A sidebar on the right displays the event schedule: 1. Arrivals (2021.09.09 12:00), 2. Overnight Hackathon on UX/UI (2021.09.10 10:00), and 3. Training on UX/UI (2021.09.10 10:00). Below the schedule, it says 'You are attending'. The main content area is titled 'Applied ideas' and has a 'Submit idea' button. A modal window titled 'Submit your idea' is open, showing a dropdown menu with the text 'Choose from the list' and a 'Submit idea' button. A red circle highlights the 'Submit idea' button in the modal, and a red arrow points to it from the 'Submit idea' button in the main content area. The background is dimmed.
