

## Free the press – Paint The Streets, Poster and Stickers print information

### How to participate:

1. [Order posters printed on-demand](#)
2. [Print at home!](#)
3. [Pool resources for a large print order](#)
4. [Sticker printing](#)

### Order posters printed on-demand

Artwork for the posters can be downloaded [here](#)

If you want to get smaller quantities printed for you, we recommend [Jam Jar print](#) in Bristol using their DayGlo flyposter option – select **pink** for poster 1 and **yellow** for poster 2.

### Print at home!

Download the artwork [here](#)

⚠ **The artwork is black and white!** It will be much cheaper, better for the environment and more impactful if you print them in black only onto **coloured paper!**

The best way to make sure your posters are aligned with the national campaign is to use fluorescent paper which can be found [here](#) and [here](#) – many local stationery shops also stock it, just remember to go for a paper that isn't too heavy – ideally you want to use 80-90 gsm for a great flyposting result.

In case you can't find coloured paper there are versions of the posters with coloured backgrounds [here](#). Please consider these only in case you really can't find coloured paper, they won't be as impactful and also you'll get a white border around your posters.

### Pool resources for a large print order

If you want to make a big print order (more than 1000 copies), maybe with another group, please get in touch with [xrdesigngroup@gmail.com](mailto:xrdesigngroup@gmail.com) and we can help you organise printing. A larger print run for London is in the making, join the Paint The Streets [telegram chat](#) to stay connected.

### Sticker printing

For printing stickers we recommend [stickershop](#) using their yellow neon sticker option, do leave a note when ordering that the pink line is the cut path and not part of the artwork.

Any questions please get in touch with [design group](#)
