Ideas and Notes

Luca is a psionic Dzaan who owns and manages a VR lounge.

- Her psionics are limited to telepathy and a lust aura. Due to her psionics drugs that affect Dzaan addiction affect her differently.
- VR lounge can be literally any scene people want. Should lean towards submission or bad ends though that doesn't mean there cannot be good endings.
- The PC can earn some perks while trying to romance Luca.
- The PC can trigger a bad end while trying to romance Luca.
- She is a dom in bed, but due to her situation usually acts extremely careful when having sex. She becomes more dominant as she and the PC have sex. She has an oral fetish.

Starting her relationship

1. PC meets Luca. Exhaust all initial dialogue with her and use her VR sims 2-3 times.
 - a. Dialogue options are "Store", "Sign", and "Race"
 - b. Any VR sims should work. They just have to be different.
2. Ask Luca about the content of her VR sims, which should unlock "Flirt". Flirt with her until you see all variations.
 - a. Dialogue options are "VR Content" and "Flirt"
3. Tell her you like her and ask if she would like to have a relationship. Don't forget to push for it.

Having a relationship with Luca

1. The PC begins prep work with Luca. This involves training the PC's throat and building up a resistance to her cum and aura. Due to her psionics, drugs that stop the addiction in her cum isn't one hundred percent effective.
 - a. Scene for deep throat training. After 3 to 5 sessions Give the PC "can deep throat" tag.
 - i. Luca will use dildo's of increasing size to train the PC to eventually deepthroat her dong.
 - ii. If PC is a bimbo or can deep throat some other way then the training only needs to happen once.
 - iii. Make it repeatable for those who want it.

- b. Scene for building up resistance. 3-10 sessions based on Willpower. PC ingests increasing amounts of fresh cum and stays near Luca for increasing amounts of time while her lust aura is active.
 - i. The more Willpower the PC has the less time they need to build up resistance. I think every 10 willpower should reduce the session count by 1.
 - ii. After at least two sessions or with a 0 in Willpower the PC may push Luca for more cum. They will receive two warnings about how it is a bad idea. If they push Luca a third time she will lose herself to her lust and fuck the PC causing a Bad End.
 - 1. Bimbo's get different bad ends, like they're just perfectly content with how everything turned out.
- 2. Final test before PC "officially" starts a relationship with Luca. PC and Luca finally have sex. The PC can push for this part before they are done training. If PC initiates the scene before they're done training then they get a Bad End.
 - a. Starts with a throat fuck then ends with either pussy or ass.
 - b. This bad end is different from the training one.
 - i. Bimbo's once again get slightly different bad ends.
- 3. PC begins building up submission and oral addiction while having sex with Luca. Oral addiction is for a perk, the pc gains oral addiction whenever they service Luca with their mouth.
 - a. Unlock the following sex scenes
 - i. Oral: deep throat Luca and drink her cum
 - ii. Ride Her: get on top and ride her tool
 - iii. Fuck Me: repeatable version of the Final Test scene
- 4. After building up enough submission the PC can ask Luca for more "rough" sex where she uses the PC however she wants.
 - a. Unlock the following sex scenes
 - i. Fuck Toy: Luca uses her BDSM gear on the PC and fucks them silly.
 - ii. Cum Dump: Luca fucks the PC for hours on end filling all their holes with her cum.
 - iii. Denial: Luca denies the PC climax for hours while she fucks them. Then gets them off in a explosive orgasm.
- 5. After building up more submission the PC can ask Luca if she wants to try more lewd things.
 - a. Unlock the following sex scenes
 - i. Exhibition Oral: give Luca some mouth comfort while she works in her lounge. The PC may choose to hide it or let the world know.
 - ii. Sub Switch: The PC fucks her while she's set up in her BDSM equipment. Requires a cock or hardlight dildo

- iii. Cattle Fuck: Luca fucks the PC while they're in stocks being milked like a cow. Will require milky tits and/or a cock.
6. Once the PC reaches 100% submission Luca will tell the PC she's wants romantic things as well.
 - a. Unlock the following sex scenes
 - i. Gentle: Luca and the PC have intimate, slow and drawn out sex. They bring each other to climax multiple times.

Random Things

- Luca, Sera, Xanthe, Belle and other doms met on some extranet forums and have a get together once a month and hang out. One of them invites the PC eventually. Sex ensues I guess? I just like the idea of all of the PC's doms talking shop and their sexual exploits.
- Introduce Luca's sister who has always wanted to get fucked by her. Leads to a three way staring an the PC, Luca and her sister who is an Alpha/Beta.
- If Syri becomes a crew member and the PC visits Canadia with her. Syri will meet Luca and convince her to set up a non-sexual gaming tournament. The PC and Syri can then team up and compete.
- Variable X occurs and the PC slowly starts becoming addicted to Luca. The PC convinces Luca to build a harem of her own. The PC then brings Luca people they have met in their journey to be added to the harem.
- The PC wants it rough from Luca, but she's to gentle. So the PC convinces Sera to help. Sera and Luca threesome where Sera teaches Luca how to really dominate the PC.
- Luca and Ben/Bess hit it off while the PC is visiting. They become friends.
- The PC arrives at the Lotus Eater to find some intern/robot behind the desk because Luca is at 'Kui Country Bar and Lodge' drinking with Kally.

Dialogue

VR Content -

PC asks Luca why most of her sims involve submission and bad ends. Luca explains that's what she likes, though she likes to be the dom.

Flirt -

should be repeatable. There should be roughly 3 variations before you're in a relationship and a slightly different versions of those after you're in a relationship.

I Like You

PC does their thing and tells Luca they like her. Luca explains her situation where if she has a partner she has to be extremely careful around them, especially when they have sex. She doesn't want her partners to become mindless sex maniacs who are addicted to her. If the PC pushes for a relationship then Luca will ask the PC if they're willing to do some prep work with her.

Sex

Give Oral

// Written way back when Luca was named Io and she was my OC alien race. No references to Dzaan addicting cum. Will need to be edited to reflect changes and clean up.

//Tooltip: Get down and give Luca some relief. You know you'll enjoy it.

First Time: Luca leads you by the hand to the door past all the private VR rooms. She uses a handprint scanner to open the door. She steps in first which allows you to get a full view of the room.

The lighting of the VIP room is in a constant flux of colors, though it never gets brighter. You're reminded of several noir extranet shows you've seen. The room is large with a curved couch like seating ringed around a messy circular bed with too many pillows. There appears to be several sexual contraptions and toys spread throughout the room. In the back you can see a disorganized workstation full of electronics and parts.

Luca waves you over to the rounded couch. You follow after her as she takes a seat. When you reach her she leans back presenting her semi erect magenta cock. "This is how it's going to work. As your dom it's your privilege to bring me pleasure, do it right and you'll be rewarded. Now get on your knees and open your mouth."

You submissively kneel before Luca and gently caress her thighs. You take your time moving your hands across her smooth skin. You're breathing gets heavy as you lean in. This is the first time you've seen Luca's cock up close. Nearly all eleven inches brush across your face as you take in her impossibly sweet scent.

Luca brings her hands to your head and lightly strokes your [pc.hair]. "For my kind, to be a dom is to receive pleasure and return it in kind. To be a sub is to experience pleasure through giving it." Luca's voice enters your mind. *<i>"You won't be disappointed."*

Repeat: You ask Luca if she is up for some fun of a sexual nature. Last time was almost beyond words.

"I am always ready to have some *<i>fun</i>* [pc.name]. And now I know how much of a wonderful sub you are. However if you keep coming back like this you may wind up becoming addicted to me. We'll have to think of a way to deal with that, but later."

Luca leans back presenting her semi erect magenta cock. You submissively kneel before Luca and gently caress her thighs. You take your time moving your hands across her smooth skin. Luca brings her hands to your head and lightly strokes your [pc.hair]. "For my kind, to be a dom is to receive pleasure and return it in kind. Now what does it mean to be a sub?"

"To be a sub is to experience pleasure through giving it." You say through heavy breaths.

Luca's voice enters your mind. *<i>"You won't be disappointed."*

Your body heats with arousal as you bring your tongue to the base of her cock. You slowly drag your tongue up her length. Every inch you pass makes your mind jump ahead and your throat tingle in anticipation. But you stop just as you are about to reach her crown. You slowly move your tongue back down her broad shaft all the way to the base and back up again and again and again. Each time you stop just short of her dry, throbbing, untouched crown.

{if PC has cock: Your dick hardens throughout your tongue ministrations.} {if PC has vagina: Your pussy wets itself throughout your tongue ministrations.} {if PC is herm: Your dick hardens and your pussy wets itself throughout your tongue ministrations.}

ministrations.} {PC has none of the above: Your ass has been twitching throughout your tongue ministrations.} You look up at Luca to see what your lavishing actions have done. Her mouth hangs open ever so slightly, her breath is heavy and her eyes shut. Your heart quickens at the sight.

One last time you bring your tongue up her cock. This time {Tongue is Long: you wrap your [pc.tongue] around her girth. You oh so gently pump her shaft as you move your head up to your target} {Tongue not Long: you drag your tongue around her girth. You make sure no spot is without your saliva as you move your head up to your target}. Your mouth waters in impatience as you move up her cock.

You stop as you reach the top of her cock. You bring your tongue back into your mouth and lean forward. When your hot breath touches her crown, her whole cock twitches and starts swaying. You look up again to see Luca staring down at you intensely. Her lips tremble as her whole body tenses up in anticipation. You purse your [pc.lips] and lovingly kiss the neglected tip of her cock.

The moment your lips touch her cock your body clenches up. Each of your senses suddenly intensifies from a minor orgasm. You spread your [pc.lips] around her crown taking as much of it into your mouth as you can. You take her head into your mouth trying to have your lips and tongue kiss and taste as much of her sweet and savory cock as you can.

Your vision blurs and ears ring as you take more of Luca into your mouth. She's so thick you might dislocate your jaw, maybe you already did. Despite her girth you slide down her cock with ease with your drool acting as the perfect lubricant. You only stop when her head brushes against the entrance to your throat. You barely hear Luca whimper as her cock releases a spurt of precum.

Your eyes roll as you taste a sample of her delicious seed. It feels right knowing her cock is leaking pre in your mouth. For a moment you wonder why her cock wasn't releasing precum earlier. The moment passes as Luca tenderly urges you forward with her hands. *"Please. Don't stop. You're so close to the best part."*

Her voice is all the motivation you need. Your gag reflex vanishes as you move down her shaft. Each inch that passes your [pc.lips] and enters your throat sets off fireworks in your brain. Closer. Your tongue can't stop licking the underside of her cock, you feel each and every vein you can.

You fully deepthroat Luca. It's difficult to breathe but you manage to take in a long and satisfying breathe. You use your lips as best you can to suckle and kiss the base of her cock. You let your tongue rest and let her member throb on top of it.

You take your time to just feel her inside you. Her cock is leaking more delicious precum than before and sadly it's going straight to your stomach.

"Relax at first. Then do as you desire."

Relax at first? You don't have the time to process the words. First your lips swell with heat and arousal. You instinctively tighten the seal you've made around Luca's meat and elicit a whimper from her. Following your lips, your mouth and throat quickly radiate with heat and pleasure. Each and every subtle movement from Luca's cock causes ecstasy to radiate through your body. You let out a body shaking moan at the foreign sensations.

You feel Luca's cock expand as you deepthroat her. Your body tenses up as you experience yet another minor orgasm. She releases more precum into your stomach. You don't think you can hold back much longer. You kiss the base of Luca's cock then start to move again.

You move back and feel Luca's cock slide out of your throat. {It feels almost like she was fucking your pussy.} {It feels incredible as though your throat had become a pussy.} You make sure your [pc.lips] are firm as you drag them up her shaft. Every inch that passes your oral seal sends shivers down your spine. You pull away agonizingly slow, feeling more and more empty. You're trapped in this torturous pleasure of slowly pulling her cock out of your throat. You need to taste her seed again.

Luca's crown slips from your incredibly empty throat. Her cock is leaking precum like a faucet. Tasting so much of her pre at once nearly sets you off again. Your lips tighten down around her thick head as your tongue gets to work again. Your mind and senses have cleared. Every drop that touches your tongue sets off small fireworks in your mind. You wonder if Luca treats all her subs to such delicious jizz. The thought of Luca with another sub completely and utterly lavishing her in attention annoys you. You want her cock all to yourself and you're going to prove that you deserve it.

// Next Scene

At this point Luca is panting uncontrollably and her hands can only gently caress your [pc.hair] lest she break the rhythm. You yourself can't stop moaning like {a whore} {an animal in heat}. You don't even know when you started bobbing your head, you just know it feels too good to stop. Each taste of precum is more delicious than the next. You want her to fill you with her seed, no you need her to at this point.

"With thoughts like that, I guess you're ready for the main course."

You freeze at the words, your mind overloaded on far too many things at once. Then you move your head down. This time there's no wait. Luca's crown glides through the entrance of your throat. Your mouth and throat are coated with so much saliva and precum you slide down Luca's shaft like a well lubed onahole. With one swift deepthroating you're kissing her base again. But it's not just for her now, it's for the both of you.

You're going to milk her cock with your mouth and throat for every drop it has. You begin face fucking yourself on Luca's throbbing cock. With the increasing amount of precum, you know she loves it. You slide up and down her shaft as tightly and quickly as you can. But she doesn't cum. You moan louder and louder, knowing it causes your throat to vibrate around her perfect thickness. You're so close, but she won't give in.

You have a lightbulb moment as you fuck your throat with Luca's meat stick. You pull yourself forward with your arms. You try to push her as deep as you can as you press against her base. You look up at Luca with your [pc.eyes]. In your mind you whisper <i>"Please Mistress. Please use me as your personal cum dump."</i>

Luca gives out a whorish cry as something in her mind breaks. Her hands drop to her sides as her body seizes up. You feel her cock engorge as her seed surges up. With you hilted her spunk pumps straight into your stomach. Your belly swells as you ride a euphoria you've never experienced before. {if PC has cock: Your own cock starts spraying {drops/spurts/ropes} of [pc.cum] showering the floor below you.} {if PC has vagina: Your own pussy contracts in neglect as your [pc.girlCum] {drips/streams down your legs/drenches the floor below you.} {if PC is Herm: Your cock sprays {drops/spurts/ropes} of [pc.cum] and your pussy contracts in neglect as your [pc.girlCum] {drips/streams down your legs/drenches the floor below you.}. {PC has none of the above: Your asshole clenches feeling empty and unfulfilled.}

You feel each thick sticky heavenly drop of her seed flow into you. Quickly her cum overflows from your throat and into your mouth. The taste is so perfect that you try to seal your lips around her base to keep it there, but there's just too much cum. It begins leaking from the corners of your mouth and then starts falling from your lower lip like a fountain.

Your body goes on autopilot as you slowly slip off of Luca's cock. When her cock finally escapes your mouth she showers you both with her apparently endless seed. Eventually the flow stops and her cock begins to soften. You kneel before Luca completely filled and covered with her spunk. You both stay like that in a blissful euphoric post-fuck state for nearly half an hour.

Luca comes out of it first. She has a robot helper fetch towels for you both. She gently lifts you onto the couch with her psionics then she delicately cleans you first. Even licking certain spots of you until it shines with spit. After you're clean she

wraps you in a blanket and excuses herself. Eventually your euphoria ends and you blackout for a short time.

You awaken on Luca's lap with an extremely sore throat. She appears to have cleaned herself and the mess. She presents you with an oddly sweet smelling drink. She tells you it will help with any pain you may experience. You slowly drink from the strange concoction. She asks if there's any classic film you would like to watch as a holoscreen appears across the room and proceeds to care for your needs like a dear lover you've known for years. When the film ends and you're feeling refreshed you bid Luca farewell.

VR Simulation Ideas

Sim 1: Space Ork Slavers

The PC enters the sim as themselves or Stella Goodhead. It will be a repeatable dungeon/puzzle with three different bad ends and one good end. The PC will fight three enemies consecutively with a moment in between the first and second enemy to heal or reduce lust but not both.

Sim 2: Super Awesome Completely Safe Beach Resort

The PC enters the sim as themselves. They will experience a sexualized vacation to some space resort. The PC will be given some choices and the simulation will end. I'm not sure yet if I want the sim to end on a safe and secure note or a straight bad end.

There will be an initial scene and then a choice of three "Attendants". Each attendant has their own path with two scenes. The last scene for each attendant will be the end of the sim.

Sim 3: The Odyssey

The PC enters the sim as theirself or an Avatar. They will go on a sexualized version of the Odyssey in spaaaaaaaaace. The scenes will offer intro to the challenge Odysseus faced then allow the Pc to choose to solve the issue or fuck their way through it. If the player fucks their way through it then they'll be given a choice to move on or bang again (bang again leads to bad ends).

Sim 4: Game Show

For reference: <https://nhentai.net/g/184293/>

The PC enters the sim as theirself or an Avatar. Then goes onto an extranet game show where they suffer multiple orgasms and transformers at the hand of an all powerful host. The player will compete against other contestants for the right to move onto the next challenge. Each challenge will present 3+ options for the pc to choose from: one will always win, one will always lose and extras will simply apply transformations to the pc.

Sim 5: James Bond Rip

The PC enters the sim as Stella Goodhead. Goes on a space and sex themed 007 adventure where after certain points the PC will be given some choices. Usually going like such: Fuck a character, Continue with the Plot, Trigger Obvious Bad End.

Perks

Deepthroat Pro

The PC is able to deepthroat most cocks and cock shaped objects. Apply to scenes as necessary.

Oral Addiction

AHornyPanda made a much more detailed and better version than mine.

Old version

The PC is addicted to giving blowjobs and deepthroats. Whenever the PC performs oral sex or ingests cum they regenerate X energy. If the PC is prompted to give oral to a npc they have a percent chance of saying yes without input based on willpower.
