

Vision, Mission, and Objectives of the Department of Physical Education and Sports Sciences

1. Department Vision:

The department aspires to be a distinguished center in preparing educational and sports cadres by offering high-quality education and conducting scientific research that contributes to the development of physical education and sports sciences locally and regionally, while promoting physical, psychological, and health-related values in the community.

2. Department Mission:

The mission of the Department of Physical Education and Sports Sciences is to prepare academically and pedagogically qualified cadres capable of teaching physical education and coaching sports teams, as well as enhancing health and sports awareness in society. The department also aims to encourage scientific research in areas related to physical education and sports to advance knowledge and field practices.

3. Department Objectives:

- Prepare teachers and specialists: Equip students with theoretical knowledge and practical skills that qualify them to work as teachers and coaches in schools and sports institutions.
- Promote scientific research: Encourage research focused on solving problems in physical education and sports, and develop innovative sports programs that contribute to improving public health and physical fitness.
- Community service: Contribute to raising awareness about the importance of physical activity and health education through organizing workshops, seminars, and sports conferences.

- Curriculum development: Keep up with scientific and technological advancements in physical education and sports sciences and adapt curricula accordingly.
- Enhance students' physical and psychological capabilities: Develop students' physical skills and psychological abilities to improve their personal and professional performance in the sports field.
- Qualify sports leaders: Prepare sports leaders capable of managing and developing sports activities and events at school and community levels.
