

This branch looks pretty lonely. I'll go for it. Any other takers? (He writes, hopefully.) -- Jesse Savage

I thought I was the only one!--Tess McMains

It looks like I'll be doing this as well! --Lindsay Farinella

Hey, has anyone noticed that the book *Scholarship in the Digital Age: Information, Infrastructure, and the Internet* is checked out until 6/05? This isn't a huge problem for the second section of readings but it's one of only two for the third section, so considering we have to read at least two from each section, makes this a bit of a problem. Am I missing another location for it? It's on Google Books but it's kind of hard to get through...

>> Looks like it's the only UNC copy. I just bought the Kindle edition (\$9.99). If it's only the 3 of us, I could lend out my Kindle to you guys. Would that help?

I think at this point I'm going to read from the Google Books version as the great majority of it is available through there. But thank you so much for the offer Jesse, that's really generous of you!
