**GRAND CRESCENT**

Recognition Program Committees

All SPC members are invited to attend a special working session at the Spring Conference to provide their input and help shape the direction of the SPC’s Recognition Project. The Recognition Project’s purpose is to develop a method to recognize companies that produce and use more sustainable packaging systems based on the criteria in the SPC’s Definition of Sustainable Packaging. Representation from every supply chain position is important, so make sure your voice is heard. The session will take place on Tuesday March 25th from 2:00 - 5:00pm and is exclusive to current SPC members.

**FIFTH AVENUE**

Forest Products Working Group and Industry Leadership Committee

2:00 - 3:00 p.m. - FPWG members only. From 3:00 - 5:00 p.m., the meeting will also include members of the Forest Certification ILC and is open to any SPC member companies that would like to attend. The ILC will be discussing preliminary findings and recommendations from the Value Innovation Process to facilitate future industry-wide efforts to drive participation in forest certification. To get involved with the Forest Products Working Group, or for more information on the ILC, please email Eric DesRoberts (eric@greenblue.org).

**VASHON**

Fun and Games with Packaging Sustainability: Essentials of Sustainable Packaging

ANNE BEDARF, SR. MANAGER, GREENBLUE
MINAL MISTRY, SR. MANAGER, SUSTAINABILITY SOLUTIONS, GREENBLUE

2:30 - 4:30 p.m. Join us for a free short introduction of packaging sustainability, key developments, and design evaluation. This session is a modified adaptation of the SPC’s Essentials of Sustainable Packaging course that gives a comprehensive introduction to various facets of packaging sustainability. Participants will engage in fun and games leading to discussions about packaging sustainability, followed by an illustration of packaging assessment. Participants will have a chance to play, question, opine, and network. There are no winners or losers, but there will be prizes! Open to all attendees, especially new SPC members and anyone new to the sustainability discussion.

**PUGET SOUND ROOM**

Introduction to the SPC Reception

A special reception for those attending their first SPC meeting.

**GRAND BALLROOM II**

Welcome Reception
FIFTH AVENUE

Yoga
MINAL MISTRY, SENIOR MANAGER, GREENBLUE

Join Minal Mistry for an early morning yoga session. Come to stretch, relax, and prepare for the day. Participants are encouraged to bring their own yoga mats. Some mats will be provided, and the hotel will have towels available for those that do not have mats and still want to participate. Water will be provided. No prior experience required!

GRAND BALLROOM II

SPC Industry Leadership Committee Breakfast Sessions
Optional; ILCs will meet at designated tables.

GRAND FOYER

GRAND BALLROOM III

Opening Remarks
NINA GOODRICH, GREENBLUE EXECUTIVE DIRECTOR AND SPC DIRECTOR

GRAND BALLROOM III

The State of Corporate Sustainability
JOEL MAKOWER, CHAIRMAN AND EXECUTIVE EDITOR, GREENBIZ GROUP, INC.

How does sustainable packaging fit into the larger world of business and sustainability? Joel Makower, executive editor of GreenBiz.com and author of its annual "State of Green Business" report, looks at where business is going, the progress it is (and isn’t) making and what needs to happen to align business and sustainability goals in the coming years.

GRAND BALLROOM III

Top Down Sustainability
JOAN KRAJEWSKI, GENERAL MANAGER OF SAFETY, COMPLIANCE AND SUSTAINABILITY, MICROSOFT
SUSAN LONG, ENVIRONMENTAL IMPACT MANAGER, STARBUCKS COFFEE COMPANY
KIRK MYERS, CORPORATE SOCIAL RESPONSIBILITY MANAGER, REI
MODERATOR: JOEL MAKOWER, CHAIRMAN AND EXECUTIVE EDITOR, GREENBIZ GROUP, INC.

Companies that are frequently recognized for their sustainability accomplishments typically have strong buy-in from the C-suite and other top level management. In this talk-show style interview session, Joel Makower, seminal environmental journalist, will probe corporate sustainability leads from Seattle-based SPC member companies, Starbucks, REI and Microsoft. He will get them talking about their respective corporate sustainability agendas and how sustainability is integrated into their business strategies. The panelists will also be urged to share what their short and mid-term goals are and how they expect to achieve them. And, in keeping with the conference theme, they will be asked to talk about their personal leadership styles and how they strive to drive sustainability innovation throughout their organizations.

GRAND BALLROOM III

Bottom Up Sustainability
ERIC ABRAHAM, PACKAGING ENGINEERING MANAGER, REI
STEVE RAMSEY, SOURCING MANAGER - PACKAGING, STARBUCKS COFFEE COMPANY
JANE TSILAS, SR. DIRECTOR OF PACKAGING, MANUFACTURING AND SUPPLY CHAIN, DEVICES AND STUDIOS, MICROSOFT
MODERATOR: JOEL MAKOWER, CHAIRMAN AND EXECUTIVE EDITOR, GREENBIZ GROUP, INC.

Top down sustainability leadership, while critical, is not sufficient to truly creating a sustainable organization. The most admired companies embed sustainability throughout their organization, from bottom-up leadership as well. Immediately following the corporate sustainability leads panel, Makower will interview packaging sustainability experts from Starbucks, REI, and Microsoft about how their company’s corporate sustainability agenda is adapted for their day-to-day packaging goals. Makower will question panelists about how they implement their goals in their internal operations and out to their supply chain partners. Panelists will also be asked to talk about how they interact as a team with their corporate sustainability leads and the role they play in broader employee sustainability engagement.
GRAND BALLROOM III
Integrated Sustainability
ERIC ABRAHAM, PACKAGING ENGINEERING MANAGER, REI
JOAN KRAJEWOSKI, GENERAL MANAGER OF SAFETY, COMPLIANCE AND SUSTAINABILITY
SUSAN LONG, ENVIRONMENTAL IMPACT MANAGER, STARBUCKS COFFEE COMPANY
KIRK MYERS, CORPORATE SOCIAL RESPONSIBILITY MANAGER, REI
JANE TLSAS, SR. DIRECTOR OF PACKAGING, MANUFACTURING AND SUPPLY CHAIN, DEVICES AND STUDIOS, MICROSOFT
MODERATOR: JOEL MAKOWER, CHAIRMAN AND EXECUTIVE EDITOR, GREENBIZ GROUP, INC.
Panel 1 members will join panel 2 members on stage for an audience Q&A session

GRAND BALLROOM III
Seattle’s Solution to a Packaging Challenge
DICK LILLY, MANAGER FOR WASTE PREVENTION AND PRODUCT STEWARDSHIP, SEATTLE PUBLIC UTILITIES
Among Seattle’s many sustainability goals on the way to carbon neutrality by 2050, Seattle Public Utilities is aggressively pursuing Zero Waste through pioneering and nationally-recognized cutting-edge regulations to keep single-use, throw-away food service packaging and leftover food out of the landfill. Learn how the city’s regulations that require single-use service ware and packaging to be compostable can move the quick-serve restaurant industry toward real sustainability within the next five years.

GRAND BALLROOM III
Garbage Burritos to Mariachi Bands: How Are We Going to Get More Packaging Recycled
SEGO JACKSON, PROJECT SPECIALIST IV, SNOHOMISH COUNTY, WA
With the some of the best recycling programs in the nation, why is so much paper and packaging still being wasted in Washington State? Innovative local efforts are working to tackle issues, address barriers and reach out to families, apartment dwellers and ethnic groups in order to get more materials correctly recycled. These efforts inform and inspire, but as you’ll learn in this session, it’s going to take all of us working together to really make it happen.

GRAND BALLROOM III
Leveraging Consumer Insights for Sustainability
JANINE JAMES, FOUNDER AND CREATIVE DIRECTOR, THE MODERNS
Think you understand consumer insights and the power of knowing your customer? Think again! Most brand managers, marketers, product designers and innovation champions mistake observations about what consumers do, what they purchase, and how they think or feel about products as "consumer insights," and often fail to fully understand their market opportunities, especially when it comes to sustainability. Attendees will walk away from this session with a new perspective on how to learn what you need to know about an ever-changing marketplace from a "solutionist" whose creative agency helps companies evolve their brands into cultures and life styles, with an emphasis on design ecology and corporate alchemy.

GRAND BALLROOM III
Consumer Insights and Packaging Sustainability Lessons Learned From Dow Chemical
JEFFREY WOOSTER, GLOBAL SUSTAINABILITY DIRECTOR, PACKAGING & SPECIALITY PLASTICS, THE DOW CHEMICAL COMPANY
One of the reasons The Dow Chemical Company is a leader in providing more sustainable materials to the packaging industry is its commitment to understanding the needs of the market. One of the ways the company approaches understanding sustainability needs is by conducting bi-annual consumer insight surveys. In this session, Jeff Wooster of Dow will share the results of recent surveys and discuss how its engineers and scientists use the data to help customers develop and deliver cutting edge packaging solutions.
GRAND BALLROOM III
Family Forestry in the US
BRETT J. BUTLER, RESEARCH FORESTER AND CO-DIRECTOR OF THE U.S. FOREST SERVICE AND UNIVERSITY OF MASSACHUSETTS FAMILY FOREST RESEARCH CENTER
The fate of the forests lies largely in the hands of those who own it. Over half of the 750 million acres of forest land in the United States is privately owned, and of this, families and individuals control nearly two-thirds of it. Private forests represent the next phase of forest conservation in the United States. During this presentation, Dr. Butler will present the latest findings from the USDA Forest Service’s National Woodland Owner Survey and explore who owns America’s forests, why they own it, and what they intend to do with it through data, stories, and pictures.

GRAND BALLROOM III
Sustainable Forest Management in Asia - Strategies for Forest Products in the Developing World
RUTH NOGUERON, ASSOCIATE RESEARCHER, PEOPLE AND ECOSYSTEMS PROGRAM, WORLD RESOURCES INSTITUTE
JAKE SWENSON, DIRECTOR SUSTAINABLE PRODUCTS AND SERVICES, STAPLES, INC.
HANNAH ZHAO, SENIOR ECONOMIST, RECOVERED PAPER, RISI
MODERATOR: TOM POLLOCK, SENIOR MANAGER, GREENBLUE
Even as non-governmental organizations, companies from various industry sectors and other forest experts work to increase forest certification and improve forest management practices, sourcing fiber from some regions of the world still poses unique challenges and potential risks. Hear expert speakers share their experiences and detail the most important challenges and opportunities for achieving sustainability goals in Southeast Asia. The panelists will discuss sustainability measurement, the performance of manufacturing facilities, wood fiber sourcing from regions with significant risk, and strategies for improving and leveraging recovered paper fiber.

FIFTH AVENUE
Carbon Footprinting, SASB and the GRI G4
BARBARA BROWN, PRINCIPAL AND CO-OWNER, BROWNFLYNN
STEVE LIPPMAN, DIRECTOR, CORPORATE CITIZENSHIP, MICROSOFT
LAURA ROWELL, GLOBAL SUSTAINABLE PACKAGING MANAGER, CONSUMER PRODUCTS, SONOCO
MODERATOR: ERIC DESROBERTS, PROJECT ASSOCIATE, GREENBLUE
Learn about key developments in the field of corporate sustainability reporting including new applications of carbon footprinting, the Sustainable Accounting Standards Board Standards, and the Global Reporting Initiative latest G4 Guidelines. Panelists will discuss the pressures passed along throughout the supply-chain, materiality in the context of sustainability reporting, and the different functions served by the reporting frameworks. They will also discuss value chain mapping and how reporting at the packaging level relates to enterprise level reporting.

ANNE BEDARF, SENIOR MANAGER, GREENBLUE
ERIC DESROBERTS, PROJECT ASSOCIATE, GREENBLUE
MINAL MISTRY, SENIOR MANAGER, GREENBLUE
DANIELLE PEACOCK, PROJECT MANAGER, GREENBLUE
TOM POLLOCK, SENIOR MANAGER, GREENBLUE

A panel of SPC staff will look back on SPC accomplishments up to and including day one of the conference and then turn their focus on what’s on the horizon for the Coalition.

9:00 - 9:15

GRAND BALLROOM III

The Sustainable Green Printers Certification

MARTINE PADILLA, EXECUTIVE DIRECTOR, SUSTAINABLE GREEN PRINTING PARTNERSHIP

To be a truly sustainable package, the printing must be considered. The Sustainable Green Printing Partnership (SGP) certifies printers that meet rigorous, holistic sustainability criteria. This session will explore how companies and facilities that have participated in the program saw a significant return-on-investment by implementing best management practices. In addition, the session will show how participating companies achieved a competitive edge by being able to validate that they are a link in a more sustainable supply chain.

Professional Sports Teams Turn Up the Volume on Sustainability with a Focus on Packaging

JOE MYHRA, VICE PRESIDENT, BALLPARK OPERATIONS, SEATTLE MARINERS

The Green Sports Alliance launched 3 years ago with 6 professional teams from the Pacific Northwest and has already grown to 215 members representing 92 teams, 116 venues, and 7 leagues. Their mission is to help sports teams, venues, and leagues enhance their environmental performance. Learn how teams are driving bottom-line results, greening their brands, improving their environmental performance, and exposing a huge audience to a better way to play. Also hear about the specific efforts the Mariners have made at Safeco field and how the franchise reached zero waste.
GRAND BALLROOM III

9:30 - 9:45

The Evolution of EPR in Canada
ALLEN LAGDON, MANAGING DIRECTOR, MULTI-MATERIAL BRITISH COLUMBIA
The most ambitious EPR program in Canada is set to launch on May 19, 2014 in British Columbia by Multi-Material BC (MMBC). It will be the first fully financed, industry managed EPR program for printed paper and packaging (PPP) in the country. Unlike other PPP programs in Canada that simply provide funding to support the existing municipal systems, the MMBC program will manage all components of the supply chain including collection, transportation, processing and sale of the material into end markets. Our speaker will provide an overview of the program, its philosophy, the challenges it has faced in the lead-up to its launch, and insights into how this new program may change the EPR landscape in Canada and North America.

GRAND BALLROOM III

9:45 - 10:00

Sustainability in Harmony: Aligning Global Best Practices for Packaging EPR
SCOTT CASSEL, CEO AND FOUNDER, PRODUCT STEWARDSHIP INSTITUTE
Extended Producer Responsibility for packaging is a legislated practice that has operated for many years with great success in countries around the world. In 2013, the Product Stewardship Institute (PSI) and PAC-NEXT, a Canadian packaging industry association, set out to research and better understand the nuances of 11 packaging EPR programs in Canada, Europe, and Australia—programs that will undoubtedly serve as models for future programs in the U.S. Our research aimed to uncover best practices in EPR legislation and program implementation, and to assess opportunities for harmonization across international borders. While PSI and PAC-NEXT will release a report in the coming months summarizing these programs, this presentation will highlight the key findings of the research, including their implications on packaging EPR progress in the U.S.

10:00 - 10:15

Marine Plastic Pollution: Science as the Foundation for Collaboration and Solutions
GEORGE LEONARD, CHIEF SCIENTIST AND DIRECTOR, TRASH FREE SEAS PROGRAM, OCEAN CONSERVANCY
The threat of marine debris—especially plastics—on healthy oceans is an increasingly important conservation, business and policy issue. Long-term solutions to this problem must be informed by science if they are to have lasting environmental and societal benefits. As a leading conservation organization, Ocean Conservancy has been facilitating an independent and rigorous scientific evaluation of the scale, scope and impact of plastics in the ocean. Simultaneously, we are bringing together conservation and business interests to identify and advance meaningful solutions to marine debris. These new scientific insights create opportunities for industry and conservationists to work together on actionable strategies to prevent plastics from entering and harming the ocean. Learn how you can help seize these opportunities to ensure a healthy ocean for the future.

GRAND BALLROOM III

10:15 - 10:30

The Challenge of Understanding
JAY BASSETT, CHIEF, MATERIALS MANAGEMENT, REGION 4, U.S. ENVIRONMENTAL PROTECTION AGENCY
This presentation will help you understand the issues involved with measuring recycling and what the U.S. Environmental Protection Agency is doing to improve quality of its reporting. Examples of some on the ground projects will be shared as well as EPA interest in the SPC's efforts to collect better recycling reach data.

Sustainable Materials Management: A Flexible Framework for Sustainable Product Design

JAMES EWELL, DIRECTOR, GREENBLUE

The Sustainable Packaging Coalition (SPC) was formed with a strong focus on the life cycle flow of packaging materials from sourcing through to recovery and revalorization, and has developed a number of resources to promote life cycle design, supply chain collaboration and performance measurement. At GreenBlue, SPC’s parent organization, the focus on materials is expanding as the organization seeks to help companies contribute to a more sustainable economy. This session will provide an overview of Sustainable Materials Management (SMM), a framework used by the U.S. EPA, OECD and the United Nations. It will also demonstrate how SMM and life cycle design serve as the intellectual framework for guiding GreenBlue’s activities relative to sourcing of raw materials, selection of safer chemicals and materials and end-of-life considerations, and how the organization will use it to help the packaging industry develop the next generation of more sustainable packaging.

Leadership and Innovative Approaches to a Global Issue - Plastics in the Wastestream
JON ANGIN, VICE PRESIDENT, BUSINESS DEVELOPMENT, AGILYX CORPORATION; ASHLEY CARLSON HALL, CONSULTANT, AMERICAN CHEMISTRY COUNCIL;
STEVEN RUSSELL, VICE PRESIDENT, PLASTICS, AMERICAN CHEMISTRY COUNCIL;
DOUG WOODRING, FOUNDER OCEAN RECOVERY ALLIANCE AND THE PLASTICS DISCLOSURE PROJECT
In so many ways, plastics have transformed the world - often improving quality of life, but sometimes creating unintended consequences and waste management challenges. This panel offers insight into what an NGO, industry association, and entrepreneurial company are doing to inform, educate, manage and resolve those challenges. From science based research, to industry collaboration and technological innovations, our speakers explore reality as well as the realm of new possibilities.
