

x# Attendees

- * Michael Dawson (@mhdawson)
- * Arunesh Chandra (@aruneshc) - observer
- * Ian Halliday (@ianwjhalliday)
- * Sampson Gao (@sampsongao)
- * Ali Sheikh (@ofrobots)
- * Barrett Harber (@thelogicbox)
- * Patrick Mueller (@pmuellr) - lurking

Agenda

- * Stand up
- * Actions from last meeting
- * Update on work for ABI stable module API by - @ianwjhalliday, @sampsongao and @mhdawson
- * milestone planning
- * Keep working in Ian's fork or somewhere else ?

Stand up

- * Michael Dawson
 - * working on getting all NaN examples running
 - * refactored to remove C++ elements from API
 - * starting to look at sqlite3 as another more significant module to port
- * Ian Halliday
 - * started getting NaN examples converted to API
 - * converted leveldown module to API, no v8 imports!
 - * will investigate performance impact to leveldown next
- * Sampson Gao
 - * Modify the init method for addons by NODE_MODULE_ABI
 - * building new tests for api/abi

* Ali Ijaz Sheikh (@ofrobots)

* Steady progress on FFI proof-of-concept.

* Open issues review

Present

Stand up

Agenda items

Actions from last meeting

- Michael to review README.md to see if we can improve positioning versus Nan wg.

Open issues review

Actions for next meeting

Michael to review README.md to see if we can improve positioning versus Nan wg.
