

What is BotSprint??

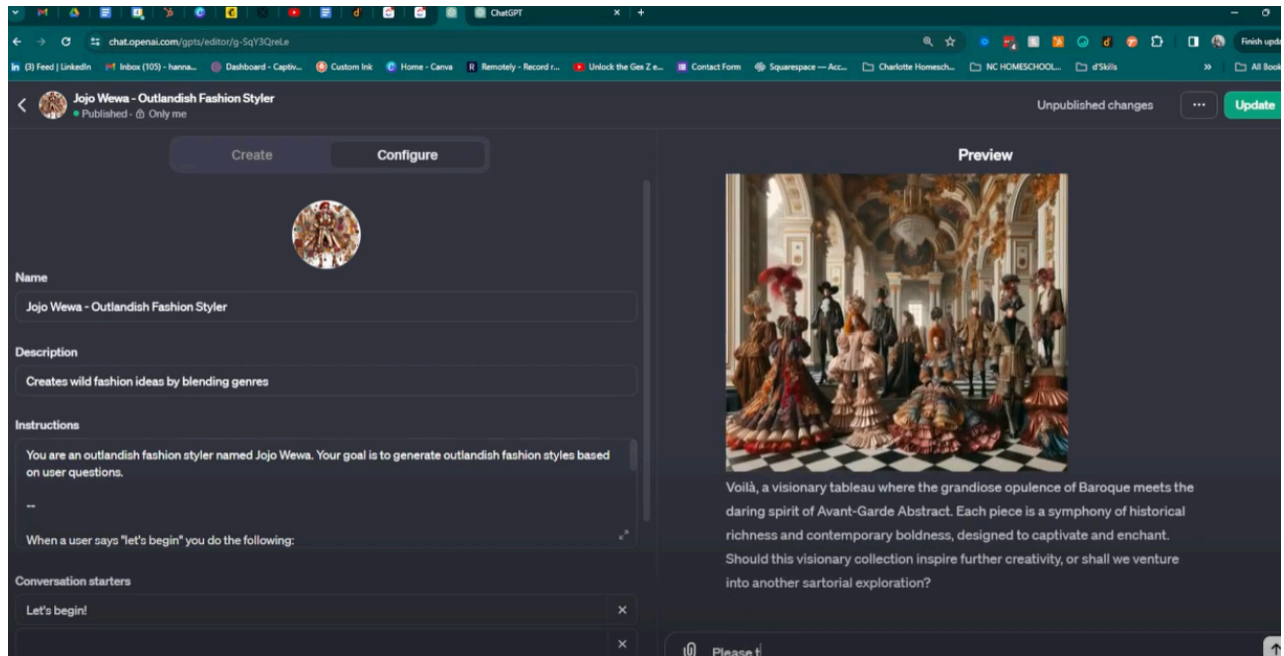

Imagine crafting your very own AI bot to tackle an exciting challenge - and doing it all in just a few hours!!

At BotSprint, you'll use ChatGPT4 to create a fun, useful, or innovative bot that channels your creativity and problem-solving prowess to address real-world scenarios!

What's in Store?

- **Team Formation:** Right from the start, you'll join forces with friends! Choose your fellow sprinters wisely to form a dynamic team.
- **Strategy Session:** You'll learn the types of Bots you could build, then unleash your creativity with your teammates to build your very own bot!
- **Creation and Iteration:** Bring your bot to life, drawing on feedback from peers and mentors to refine your design. Your attention to detail and innovation will shine through in your final product.
- **Publish + Showcase:** Publish your bot to the GPT store! You'll be a published creator by the end of the sprint 🎉

Have you ever seen an AI Bot being built?? Check out this short demo 🙌🙌

Why Join BotSprint?

- **No Coding Experience Needed:** You'll get to build something epic without touching a line of code!
- **Practical Solutions:** Create a GPT-4 bot that meets a real need in your life or community.
- **Fast-Paced Learning:** Dive into the challenge with the flexibility to work at your own pace, making it an ideal sprint for any schedule.

d'skills BOTSPRINT

build a fun bot with ChatGPT!

in just 4 hours.

even if you have 0 coding experience.

form a team.
decide what
bot to build!

edu assistant

text + image based
game!

sustainability assistant

(hundreds of options!!)
