

SUBDIVISIONS PRICE LIST WITH EXAMPLES
(All Prices are in USD)

You absolutely must read my TOS before commissioning me -

[SUBDIVISIONS TERMS OF SERVICE](#)

Price sheet is subject to changes over time, however these changes will always be reflected on this document when decided upon.

I will draw ANY SPECIES even if you don't see it in my examples. I can and will draw any species for you, including humans.

These are all of the most common commission types i offer right now, if there is anything different you are interested in, feel free to message me via direct messages or email subdivisionscommissions@gmail.com to inquire

PAYMENT TYPES ACCEPTED

-Paypal

-Credit/debit card accepted, or anything that can be used to pay an invoice receipt.

-E-checks are fine as long as it is not for a stream commission or a YCH, you will have to wait until the check clears before I can start the commission.

Payment Plan Policy:

I offer payment options for people who need to pay off a commission in multiple payments, so just keep in mind that is an option for you!

Payment plan rules -

-payment plans not available for in-stream commissions or YCH's, only regular commissions!

-after first payment is sent i do the sketch stage for you

-i will not finish the commission until after final payment is sent

-the amount of each payment and length of time to finish will be discussed with you based on what you feel you can afford

-final payment should be done within a reasonable amount of time (2-3 months, however i am willing to wait longer if the situation is discussed first)

-If something changes and you cannot finish paying, we can discuss a cheaper commission option based on what payments have already been sent so that I can finish a different project for you.
